Overview

Study Tips.....

Formulas.....

Chapter 1 Polynomial Functions

1.1 Power Functions

- Polynomial Expressions
- Graphs of Power Functions
- Recognize Polynomial Functions

1.2 Characteristics of Polynomial Functions.....

- Key Features of Graphs of Polynomial Functions
- Relationship Between Finite Differences and the Equation of a Polynomial Function

1.3 Equations and Graphs of Polynomial Functions

- Analyse Graphs of Polynomial Functions
- Analyse Equations to Sketch Graphs of Polynomial Functions
- Symmetry

1.4 Transformations.....

- Roles of a , k , d , and c in Polynomial Functions
- Apply Transformations to Sketch a Graph
- Describe Transformations From an Equation
- Determine an Equation Given the Graph of a Transformed Function

1.5 Slopes of Secants and Average Rate of Change.....

- Connection Between Average Rate of Change and Slope
- Calculate and Interpret Average Rates of Change From a Graph
- Calculate and Interpret Average Rates of Change From a Table of Values
- Calculate and Interpret Average Rates of Change From an Equation

1.6 Slopes of Tangents and Instantaneous Rate of Change.....

- Connection Between Slopes of Secants, Slope of a Tangent, and Instantaneous Rate of Change
- Estimate Instantaneous Rate of Change From a Graph
- Estimate Instantaneous Rate of Change From a Table of Values
- Estimate Instantaneous Rate of Change From an Equation

Challenge Questions.....

Chapter 1 Checklist

Chapter 2 Polynomial Equations and Inequalities

2.1 The Remainder Theorem.....

- Divide a Polynomial by a Binomial
- Apply and Verify the Remainder Theorem

2.2 The Factor Theorem.....

- Use the Factor Theorem to Find Factors of a Polynomial
- Strategies to Factor a Polynomial
- Combine Factor Theorem and Factoring by Grouping
- Integral Zero Theorem
- Rational Zero Theorem

2.3 Polynomial Equations.....

- Factoring Polynomial Equations
- Use the Factor Theorem to Solve Polynomial Equations
- Determine the Roots of a Polynomial Equation

2.4 Families of Polynomial Functions.....

- Represent a Family of Functions Algebraically
- Families of Functions
- Quartic Functions

2.5 Solve Inequalities Using Technology.....

- Solve Polynomial Inequalities Graphically
- Solve Polynomial Inequalities Numerically
- Solve Problems Involving Inequalities

2.6 Solve Factorable Polynomial Inequalities Algebraically.....

- Solve Linear Inequalities
- Solve Polynomial Inequalities Algebraically
- Solve Problems using Factorable Polynomial Inequalities

Challenge Questions.....

Chapter 2 Checklist.....

Chapter 3 Rational Functions

3.1 Reciprocal of a Linear Function.....

- Domain, Range, and Asymptotes
- Intercepts
- Rate of Change

3.2 Reciprocal of a Quadratic Function.....

- Domain, Range, and Asymptotes
- Rate of Change
- Key Features of a Function

3.3 Rational Functions of the Form $f(x) = \frac{ax+b}{cx+d}$

- Key Features of Rational Functions of the Form $f(x) = \frac{ax+b}{cx+d}$

3.4 Solve Rational Equations and Inequalities

- Solve Rational Equations Algebraically
- Solve Rational Equations Using Technology
- Solve a Simple Rational Inequality
- Solve a Quadratic Over a Quadratic Rational Inequality

3.5 Making Connections with Rational Functions and Equations.....

- Solve Problems Using Rational Functions and Equations

Challenge Questions

Chapter 3 Checklist

Chapter 4 Trigonometry

4.1 Radian Measure

- Convert Degree Measure to Radian Measure
- Convert Radian Measure to Degree Measure
- Arc Length for a Given Angle
- Angular Velocity of a Rotating Object

4.2 Trigonometric Ratios and Special Angles

- Apply Trigonometric Ratios for Special Angles
- Trigonometric Ratios for a Multiple of a Special Angle

4.3 Equivalent Trigonometric Expressions

- Use Equivalent Trigonometric Expressions to Evaluate Primary Trigonometric Expressions
- Use an Equivalent Trigonometric Expression to Evaluate a Reciprocal Trigonometric Expression
- Use Technology to Verify Equivalent Trigonometric Expressions
- Trigonometric Identities

4.4 Compound Angle Formulas

- Addition and Subtraction Formulas for Cosine
- Addition and Subtraction Formulas for Sine
- Compound Angle Formulas

4.5 Prove Trigonometric Identities.....

- Basic Trigonometric Identities
- Provide Formulas and Identities

Challenge Questions.....

Chapter 4 Checklist

Chapter 5 Trigonometric Functions

5.1 Graphs of Sine, Cosine, and Tangent Functions

- Graphs of the Form $y = \sin x + c$
- Graphs of the Form $y = a \sin x$
- Graphs of the Form $y = \sin(x - d)$
- Graphs of the Form $y = \sin kx$

5.2 Graphs of Reciprocal Trigonometric Functions

- Determine Values on the Graph of $y = \csc x$
- Determine Values on the Graph of $y = \cot x$
- Reciprocal and Inverse Notation

5.3 Sinusoidal Functions of the Form
 $f(x) = a \sin [k(x - d)] + c$ and $f(x) = a \cos [k(x - d)] + c$

- Transform a Cosine Function
- Transform a Sine Function

5.4 Solve Trigonometric Equations.....

- Solve a Quadratic Trigonometric Equation
- Solve a Quadratic Trigonometric Equation by Factoring
- Solve an Equation Involving Reciprocal Trigonometric Ratios

5.5 Making Connections and Instantaneous Rate of Change

- Average and Instantaneous Rates of Change for a Sinusoidal Function
- Solve Problems Using Instantaneous Rate of Change

Challenge Questions.....

Chapter 5 Checklist

Chapter 6 Exponential and Logarithmic Functions

6.1 The Exponential Function and Its Inverse.....

- Features of Exponential Functions
- Write Equations to Fit Data
- Graph Inverse Functions

6.2 Logarithms.....

- Logarithmic Function
- Write Exponential Equations in Logarithmic Form
- Evaluate Logarithms
- Write Logarithmic Equations in Exponential Form
- Approximate Logarithms

6.3 Transformations of Logarithmic Functions

- Translations
- Stretches, Reflections, and Translations
- Transformations

6.4 Power Law of Logarithms

- The Power Law of Logarithms
- Solve Problems Using Logarithms
- Evaluate Logarithms
- Graph Logarithmic Functions

6.5 Making Connections: Logarithmic Scales in the Physical Sciences

- Solving Problems Using Logarithmic Scales

Challenge Questions

Chapter 6 Checklist

Chapter 7 Tools and Strategies for Solving Exponential and Logarithmic Equations

7.1 Equivalent Forms of Exponential Equations

- Model Exponential Growth
- Change the Base of Powers
- Solve Equations by Changing the Base

7.2 Techniques for Solving Exponential Equations

- Half-Life
- Powers With Different Bases
- Apply the Quadratic Formula
- Extraneous Roots

7.3 Product and Quotient Laws of Logarithms.....

- Product Law of Logarithms
- Quotient Law of Logarithms
- Simplify Algebraic Expressions

7.4 Techniques for Solving Logarithmic Equations

- Solve Equations Using Logarithms

7.5 Making Connections: Mathematical Modelling With Exponential
and Logarithmic Equations.....
• Select and Apply Mathematical Models
• Solve Problems Using Exponential and Logarithmic Equations
Challenge Questions
Chapter 7 Checklist

Chapter 8 Combining Functions

8.1 Sums and Differences of Functions.....
• The Superposition Principle
• The Profit Function
8.2 Products and Quotients of Functions.....
• Solve Problems Using Products and Quotients of Functions
• Combined Functions
8.3 Composite Functions.....
• Determine Equations for Composite Functions
• Evaluate Composite Functions
8.4 Inequalities of Combined Functions.....
• Techniques for Illustrating Inequalities
• Solve Inequalities
• Solve Problems Using Inequalities
8.5 Making Connections: Modelling With Combined Functions.....
• Solve Problems Using Combined Functions
• Develop Models using Combined Functions
Challenge Questions
Chapter 8 Checklist

Practice Exam.....
Answers
