NEW EDITIONS

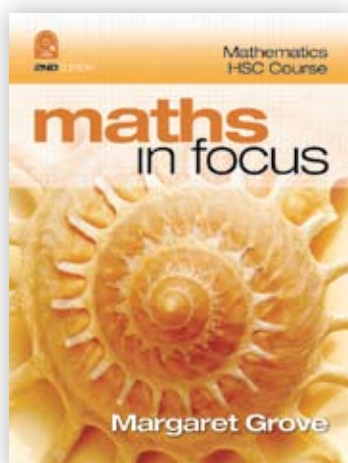

# maths in focus

Margaret Grove's Maths in Focus has long been the trusted resource for Mathematics students and teachers across NSW. The bestselling series has been extensively revised and updated with a strong new design and an emphasis on providing additional problems of a higher difficulty level to further challenge students.

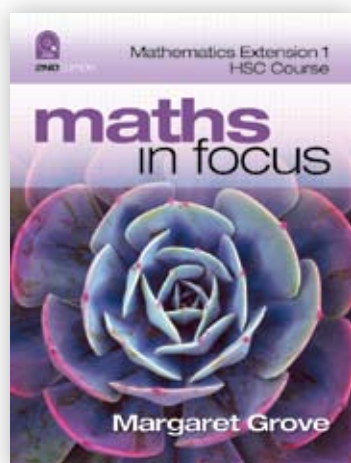

Using a straightforward approach, each text contains comprehensive fully-worked examples and explanations for every chapter, as well as ample sets of graded exercises to enable continual revision. An eText now accompanies each title, featuring an interactive copy of the text to use in class or at home.

## What's New?

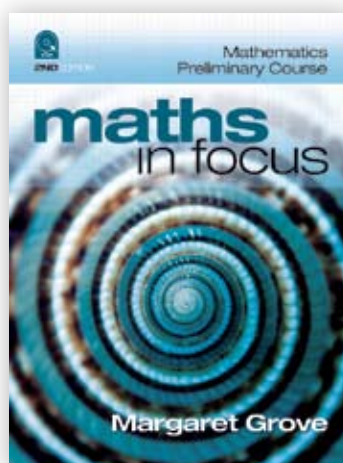

- Dynamic new design
- Increased emphasis on more challenging problems
- Greater variety of fully-worked examples and graded exercises
- Practice Assessment Tasks and Exercise sections updated and extended to include a comprehensive range of HSC exam-style questions, including short answer, free response, multiple choice and true/false
- All titles supported by an eText, which provides a more flexible solution by allowing teachers and students to access the text digitally

## Teacher Resources

Preliminary and HSC Teacher Resource CD-ROMs have been developed in alignment with the student texts, to assist teachers in planning lessons that are relevant and engaging. The Maths in Focus Teacher Resources feature:

- valuable material such as question banks and an artwork library for Interactive Whiteboard (IWB) applications
- access to EZ Test — a unique testing and assessment program that teachers can use to develop assessments specific to their needs. Able to support a range of different question types, EZ Test allows teachers to create tests in a variety of formats using either their own questions or those from the accompanying testbank.

## Online Learning Centre

The Maths in Focus Online Learning Centre is now live! Visit [www.mhhe.com/au/mathsinfocus](http://www.mhhe.com/au/mathsinfocus) for series updates, news on added content, author information, sample material and information on related titles. Teachers that use the Teacher Resource CD-ROM will also have access to a restricted area containing BLM worksheets and teaching programs.

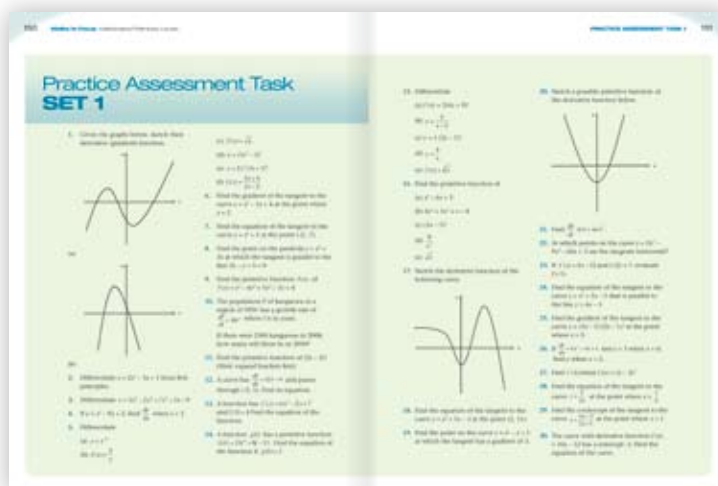

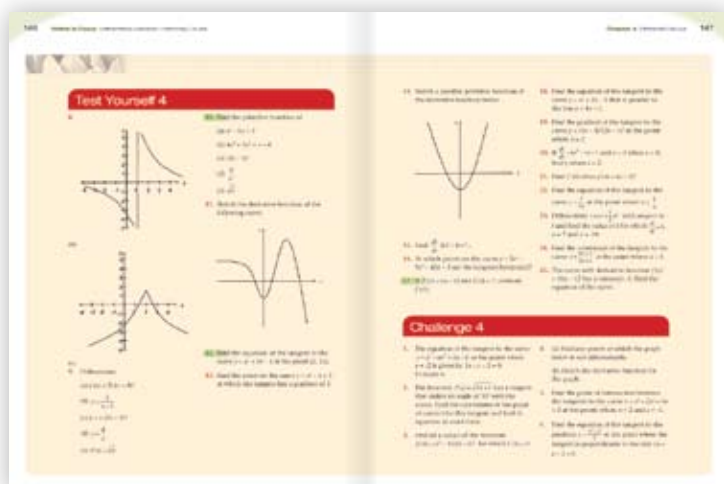

## eNewsletter

Be the first to hear about series developments and updates to the OLC — subscribe to our Maths in Focus eNewsletter and have news delivered to your inbox! Head to <http://mcgraw-hill.com.au/schools/subscribe/> and register your details today.

## eText

Maths in Focus is now supported by an eText for each title, allowing students and teachers to access content digitally and enrich their learning experience. Bookmarked to subheadings for easy navigation and access, the eText provides a searchable PDF copy of the text that can be used to aid study at home or at school.

## About the Author

Margaret Grove has spent more than 30 years teaching HSC Mathematics, most recently at a TAFE campus in Sydney. An author for over 20 years, Margaret has continually drawn on her extensive experience to create and revise the Maths in Focus series, which has been a continuous bestseller for almost ten years.

Outside of teaching, Margaret's interests are many and varied. A mother of three children, she began as a breastfeeding counsellor with the Australian Breastfeeding Association over 25 years ago and subsequently spent several years on the Association's board and three as its national president. She is also an enthusiastic choir member and names concerts with the Stomp Company and Andrea Bocelli as highlights of her singing career.

## Order Form

Please indicate the titles you would like to order by completing the 'Qty' column in the grid below. Prices featured are current from April 2009 and are subject to change without notice.

| Title   | ISBN          | Price                       | A/Copy | Qty             |
|---|---------------|-----------------------------|--------|-----------------|
| <b>Maths in Focus</b>   |               |                             |        |                 |
