# Principles of Macroeconomics 3e

## Bernanke | Olekalns | Frank

[www.mhhe.com/au/bernanke3e](http://www.mhhe.com/au/bernanke3e)

ISBN: 9780071016216 (Mandatory Pack with Connect Plus)

Publication date: May 2011

Subject area: Principles of Macroeconomics

This is the third edition of the highly successful and well-regarded Australian adaptation by Nilss Olekalns of Bernanke & Frank's *Principles of Macroeconomics*. The authors take a rigorous, theoretical approach that is nonetheless easy to follow and logical!

It is full of practical examples and in-chapter exercises that allow students to check their understanding of the important concepts as they work through the chapter. *Background Briefing* and *Thinking as an Economist* vignettes contextualise economic theory in the 'real world', and current data presents students with a snapshot of the economy as it is right now.

This edition has been streamlined in response to market feedback: the chapters on competitive advantage and the open economy have been merged into a single chapter and the chapter that covers all the important elements of introductory macroeconomics is now online. Coverage of the Global Financial Crisis has also been integrated throughout this edition.

This text is for first-year students of economics or those taking it as a first subject in macroeconomics.

### Key features

- Connect Plus: Giving lecturers more time and helping to create a more integrated learning environment
- GFC coverage integrated throughout the text to reflect the current environment
- Aggregate Demand curve - for the first time the book now contains an appendix to chapter 9 explaining the traditional approach to the AD curve and its relationship to the approach taken throughout the book

### Additional resources

- Test Bank, EZ Test, Instructor Manual, PowerPoint Slides and Student Revision Tools
- A small suite of articles and related worksheet questions

### McGraw-Hill Connect

A web-based assignment and assessment platform that gives you the power to create assignments, practice tests and quizzes online, while saving you time!

Connect provides the problems directly from the end-of-chapter material in your McGraw-Hill textbook, so you can easily create assignments and tests and deliver them to your students. Connect grades assignments automatically, provides instant feedback to students, and securely stores all student results. Detailed results let you see at a glance how each student performs, and easily track the progress of every student in your course.

### Create Assignments

With 4 easy steps, set up assignments using end-of-chapter questions from your McGraw-Hill textbook and deliver it to your students...all online.

### Students Take Assignments & Receive Instant Feedback

Connect helps you close the feedback loop on students' homework and reduce the time you spend grading. Once an assignment is completed, students can see immediately how they've performed and receive feedback on each question.

a. What is the equilibrium price? \$4.00 ✓ What is the equilibrium quantity? 75000 ✓  
Fill in the surplus-shortage column. For negative numbers be sure to include a negative sign in front of the number.

b. Graph the supply of wheat and the demand for wheat. Be sure to label the axes of your graph correctly. Label equilibrium price and the equilibrium quantity.

Your Score: 63%

Change grade: 0

### View Grades & Reports

Track each student's progress in your Connect Grade Reports. Student results on each assignment automatically feed to the grade reports so you can track student or class progress on any concept. Learning objective tags help you track course outcomes and aid in Assurance of Learning.
