## CHAPTER 3

Solutions to the alternate questions have been provided. You are required to work on the unsolved problems. This exercise will help you to gain holistic understanding of the concepts discussed in this chapter

## Exercise

1) Fill in the Blanks
1.1 Revenues, Expense
1.2 ...............
1.3 Expenses, Realized Revenues of the Period
1.4 ..............
1.5 Increases
1.6 .............
1.7 Revenues, Cost Expiration
1.8 .............
1.9 Cost of Goods Sold
1.10 $\qquad$
2) Match the Following (we pick the best fit) Column A $\rightarrow$ Column B

| 1 | $\rightarrow$ | ..... |
| :---: | :---: | :---: |
| 2 | $\rightarrow$ | E |
| 3 | $\rightarrow$ | $\ldots$ |
| 4 | $\rightarrow$ | B |
| 5 | $\rightarrow$ | $\ldots$ |
| 6 | $\rightarrow$ | F |
| 7 | $\rightarrow$ |  |

3) Classifying the Items

## Column A

Raw material consumed
Interest received
Dividends received
Wages paid to manufacturing workers
Carriage on goods sold
Carriage on goods purchased
Salary of clerical staff
Rent for office
Power and fuel
Selling agents commission
Advertising
Auditors fees
Sales tax
Municipal rates on office premises

## Column B

B
.....
C
....
B
.....
E
.....
D
.....
E
.....
E
"Suggested Solutions to Exercises" in Financial Accounting for Management by Ramachandran \& Kakani Authored by Ram Kumar Kakani \& Tanmoy Chatterjee "Copyright with McGraw-Hill Education (India) Ltd, 2007"

## Column A

Profit on sale of fixed assets
Power used in administrative office
Sales discount
Purchase returns and allowances
Dividends paid Interest expense on loans

Column B
.....
E
C

Financial Expense
4) Shyam's Enterprise : A part of the problem has been solved for you

| Year $\rightarrow$ | 1 | 2 | 3 | 4 | 5 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Sales |  | 1500 |  | $?$ |  |
| Cost of goods sold |  |  | 2000 |  |  |
| Gross Profit | 500 |  |  |  | 2000 |
| Administrative expenses |  | 400 |  |  | 400 |
| Selling and distribution |  |  | $?$ |  |  |
| Operating Profit | $?$ |  |  | 600 |  |
| Other Income |  | 100 |  | $?$ |  |
| Net Profit before tax | 400 |  | $?$ |  | $?$ |
| Provision for Corporate tax |  | $?$ |  | 500 |  |
| Profit after tax | 200 |  | 300 |  | $?$ |
| Retained earnings | 200 | $?$ | 700 | $?$ | 1950 |

## 5) Shantanu Real Estate Brokers

Possible transactions:
i. Shantanu contributed Rs 100000 as capital to his business. So, the cash position has increased
ii.
iii. Office furniture worth Rs 250000 has been purchased, but only Rs 50000 has been paid through cash. Rest Rs 200000 is on credit
iv.
v. Rs 100000 have been paid to the creditors. So, the cash position has decreased
vi.
vii. The firm purchased something worth Rs 200000 on credit
viii.
ix. Rs 150000 of accounts receivables have been realized. So, the cash position has increased
x.
xi. Rs 100000 worth account payable have been settled, so equivalent cash balance has reduced
"Suggested Solutions to Exercises" in Financial Accounting for Management by Ramachandran \& Kakani Authored by Ram Kumar Kakani \& Tanmoy Chatterjee "Copyright with McGraw-Hill Education (India) Ltd, 2007"

## CHAPTER 3 <br> Review Questions

## 1. Ani Initiatives

This problem is simple. You have worked on the same problem for balance sheet purpose in chapter-2. Prepare the P\&L a/c after each month. Allocate the depreciation properly. You can also prepare a comprehensive P\&L a/c to appreciate the difference.
(a) The final solution of Ani Initiatives is put in the next page.

It has to be noted that depreciation expenses have been taken for 3 months, though registered transactions' are for slightly more than 3 months. Internet installation charges have been considered as expenditure. But as this expenditure is going to provide benefit over longer period of time, it can also be considered as deferred expenditure. No interest charges have been considered as that was the agreement.
(b) Realization principle has been applied where Ani initiatives "accepts business from Avinash, takes an advance of Rs 9000 for research data tabulation". This amount has not been considered as revenue as it will come as unearned revenue in the balance sheet.

We used matching principle in depreciation calculation. Here only the expired amount for the relevant time period has been considered.
(c) Apparently the health of the business looks poor as during the first two months it is showing negative net profit. But here the reality creeps in. We need to understand that it takes time for any business to gain momentum. During initial phases of any business, investments look higher, but it always pays rewards with due course of time. Moreover the training expenses for Bhola (Rs 15500) have eaten away most of the profit (see the February month transactions).
"Suggested Solutions to Exercises" in Financial Accounting for Management by Ramachandran \& Kakani Authored by Ram Kumar Kakani \& Tanmoy Chatterjee "Copyright with McGraw-Hill Education (India) Ltd, 2007"

Income Statement for the month January

| Items | Amount (in Rs) |
| :--- | ---: |
| Revenues | $\mathbf{0}$ |
| Expenditure |  |
| Travelling Exp. | 1000 |
| Salary Exp. | 5500 |
|  |  |
| Internet Expenses | 1700 |
| Internet Installation exp. | 1000 |
|  | 3332 |

3. S Paul:

S Paul
Balance Sheet As at $31^{\text {st }}$ March 20X7

|  | Amount | Liabilities and Owners Equity | Amount |
| :--- | ---: | :--- | ---: |
| Assets | 32400 | Accounts Payable | 4680 |
| Cash | 15300 | Notes Payable | 600 |
| Accounts Receivable | 6560 | Accrued Interest | 440 |
| Inventory |  | Operating Expenses Payable | 2480 |
|  |  | S. Paul, Capital | 46060 |
|  | Total Liabilities \& Owners |  |  |
| Total Assets | $\mathbf{5 4 2 6 0}$ | Equity | $\mathbf{5 4 2 6 0}$ |

| We Know: |  |
| :--- | ---: |
| Begin Inventory + Purchases = Ending Inventory + Cost of Goods Sold |  |
| Begin Payables + Purchases on Credit = Ending Payables + Cash Paid |  |
| Balances on June $\mathbf{3 0}$ can then be computed |  |
| Ending Inventory | $\mathbf{3 9 6 0}$ |
| Accounts Payable |  |
| Similarly | 2120 |
| Operating Expenses Payable | 200 |

| Cash Transactions |  |
| :--- | ---: |
| Previous Balance | 32400 |
| Add |  |
| Cash Sales | 48600 |
| Cash on Accounts Receivable | 28500 |
| Subract |  |
| Supplier Payments | 61400 |
| Withdrawal | 5000 |
| Down Payment Showroom | 12000 |
| Down Payment Cash Register | 2000 |
| Repayment of Note | 600 |
| Interest Paid | 440 |
| Payament for Wages/Operatng | 16360 |
| Cash Balance | $\mathbf{1 1 7 0 0}$ |

The given information makes us believe that a zero accounts receivable balance is there on June 30

## 5. Prime Rubber Industries:

Unfortunately this problem has a few errors; we restate the same here and then go about solving the problem:

Error in chapter 3, problem 5, page 148, point (e): Please read it as below:
(e) Accounts receivable are to be maintained at the level of one month's sales. Inventory stock was expected to be Rs 5,000,000 of which $60 \%$ will be raw material. Average credit available will be about 30 days purchases.

Error in chapter 3, problem 5, page 148, point (h): Please read it as below:
(h) Administrative expenses are projected to be Rs 2,500,000. Selling and distribution expenses are projected to Rs 1,800,000.

Error in chapter 3, problem 5, page 148, Balance Sheet as on 31 December 2006: Please read it as below:

Prime Rubber Industries
Balance Sheet as at December 31, 20X6 (all figures in 000's)

| Amount |  |  |  | Amount |
| :---: | :---: | :---: | :---: | :---: |
| Assets |  |  | Liabilities and Owners Equity |  |
| Cash |  | 500 | Accounts Payable | 1500 |
| Accounts Receivable |  | 3000 | Bank Overdraft | 3500 |
| RM Inventory |  | 3880 | Current Liabilities | 5000 |
| FG Inventory |  | 1000 |  |  |
| Prepaid rent and insurance |  | 120 |  |  |
| Current Assets |  | 8500 |  |  |
| Land |  | 300 | Owner(s) Equity |  |
| Plant and Equipment | 1400 |  | Share Capital | 1000 |
| Less: Accumulated |  |  |  |  |
| Depreciation | 700 | 700 | Share Premium | 1000 |
| Goodwill |  | 1000 | Retained Earnings | 3500 |
| Total Assets |  | 10500 | Total Liabilities \& Owners Equity | 10500 |

We now provide the solution to the Prime Rubber Industries problem (after dong the above three corrections).
"Suggested Solutions to Exercises" in Financial Accounting for Management by Ramachandran \& Kakani Authored by Ram Kumar Kakani \& Tanmoy Chatterjee "Copyright with McGraw-Hill Education (India) Ltd, 2007"

Prime Rubber Industries
Projected Income Statement for the period ending December 31, 20X7 (all figures in 000's)

| Income Statement for the first quarter |  |
| :--- | ---: |
| Sales | 21215 |
| Less: RM Consumed | 6364.5 |
| Less: Wage Expenses | 2121.5 |
| Less: Other Direct Mfrg Exp | 2121.5 |
| Gross Profit | 10607.5 |
| Less: Selling, Administration Expenses | 4300 |
| Less: Depreciatioin Expense | 457.5 |
| Operating Profit | 5850 |
| Less: Interest Expense | 350 |
| Profit Before Tax | 5500 |
| Less: Tax | 1650 |
| Profit After Tax | 3850 |
| Less: Withdrawal | 0 |
| Retained Earnings Addition | 3850 |

## Remarks

Estimated from Gross Profit (backwards)
Given as $30 \%$ of Sales
Given as 10\% of Sales
Given as 10\% of Sales
Estimated from PBT (backwards)
Provided in the problem
Details Provided
On Mortgage Loan
Estmated from PAT
Given as $30 \%$ of PBT
Given in the problem
Assumed

Retained Earnings Addition
Purchases, wages, other expenses are based on sales. In order to arrive at the sales figure we need to make the backward collection from the projected net profit to calculate the Gross Profit first (and then the sales) in the following way:

> Net Profit + Tax Expense = Profit Before Tax (PBT)

Net Profit Projected is given as 3850 and Tax Rate is $30 \%$. So, PBT $=5500$
PBT + Interest Exp. + Depreciation Exp. + Admin. Exp. + Sales \& Distribution Exp. = Gross Profit PBT $=5500$, Interest Exp. $=350$, Dep. $=457.5$, Admin Exp $=2500$, Sales \& Distribution Exp. $=1800$

$$
\begin{gathered}
\text { So, Gross Profit }=10607.5 \\
\text { But, Gross Profit }+ \text { Cost of Goods Sold }=\text { Sales, OR } \\
\text { As Gross Margns are given as } 50 \% \text { (in the case) } \rightarrow \text { Sales }=21215
\end{gathered}
$$

Cost of Goods Sold (10607.5) = Goods Available for Sale - Finished Goods Inventory (2000)
$\rightarrow$ Goods Available for Sale $=12607.5$
Goods Available for Sale (12607.5) = Total Goods Available - Raw Material Inventory (3000)
$\rightarrow$ Total Goods Available $=15607.5$
Total Goods Available (15607.5) = Beginning Inventory (4880) + Raw Material Purchases + Wage Expenses (2121.5) + Other Direct Mfg. Costs (2121.5)
$\rightarrow$ Raw Material Purchases (during the period) $=6484.5$
It is given that Closing Accounts Payable is $10 \%$ of the above
$\rightarrow$ Accounts Payable $=648.5$
"Suggested Solutions to Exercises" in Financial Accounting for Management by Ramachandran \& Kakani Authored by Ram Kumar Kakani \& Tanmoy Chatterjee "Copyright with McGraw-Hill Education (India) Ltd, 2007"

| Cash Transactions |  |  |  |
| :--- | ---: | :--- | ---: |
| Previous Balance | 500 | Subtract | 460 |
| Add |  | Equipment installment | 4300 |
| Owners Equty | 5600 | Selling \& Administration Expense | 7336 |
| Cash Sales | 22447 | Suppliers Payments | 2121.5 |
|  |  | Wage Exp | 2121.5 |
|  |  | Other Direct Exp | 1650 |
|  |  | Tax Exp | 3500 |
|  |  | Bank Overdraft |  |
|  | $\mathbf{7 0 5 8}$ |  |  |

Prime Rubber Industries
Projected Balance Sheet as at December 31, 20X7 (all figures in 000's)

| Amount |  |  |  | Amount |
| :---: | :---: | :---: | :---: | :---: |
| Assets |  |  | Liabilities and Owners Equity |  |
| Cash \& Bank Balance |  | 7058 | Accounts Payable | 648.5 |
| Accounts Receivable |  | 1768 |  |  |
| RM Inventory |  | 3000 | Current Liabilities | 648.5 |
| FG Inventory |  | 2000 |  |  |
| Prepaid rent and insurance |  | 120 | Mortgage Loan (+ Accrued Interest) | 3850 |
| Current Assets |  | 13946 | Equipment Credit | 1840 |
| Land |  | 300 |  |  |
| Building | 3500 |  | Owner(s) Equity |  |
| Less: Accumulated Depreciation | 87.5 | 3412.5 | Share Capital | 3800 |
| Plant and Equipment | 3700 |  | Share Premium | 3800 |
| Less: Accumulated Depreciation | 1070 | 2630 | Retained Earnings | 7350 |
| Goodwill |  | 1000 |  |  |
| Total Assets |  | 21288.5 | Total Liabilities \& Owners Equity | 21288.5 |

"Suggested Solutions to Exercises" in Financial Accounting for Management by Ramachandran \& Kakani Authored by Ram Kumar Kakani \& Tanmoy Chatterjee "Copyright with McGraw-Hill Education (India) Ltd, 2007"

## 7. Malabar Constructions:

We start by assuming that Malabar Constructions started and completed only one project during the quarter i.e., the building worth Rs $2,48,56,000$. The company was not handling any other projects during the quarter.

We can prepare the income generated by the Malabar Constructions for the quarter ending $30^{\text {th }}$ June 2000 by matching all the revenues and closing stock with the expenses and opening stock for the period in the following way:

```
Beginning Inventory + Purchases during the period =
    Closing Inventory + Consumption during the period
```

One type of presenting the solution:
Malabar Constructions
Profit \& Loss Account for June Quarter, 2006

| PARTICULARS | AMOUNT | PARTICULARS | AMOUNT |
| :---: | :---: | :---: | :---: |
| Opening Stock | 5,14,500 | Sales (Completed building) | 2,48,56,000 |
| Cement 1,86,000 |  | Closing value of Inventory | 3,57,250 |
| Steel 1,59,600 |  | Cement 1,05,000 |  |
| Supplies 1,68,900 |  | Steel 1,65,850 |  |
| Purchases for the Quarter |  | Supplies $\quad$ 86,400 |  |
| Cement 11,28,000 |  |  |  |
| Steel 10,85,000 |  |  |  |
| Supplies 2,58,000 | 24,71,000 |  |  |
| Labour Expenses | 18,25,000 |  |  |
| Insurance Expenses ${ }^{(*)}$ | 12,000 |  |  |
| Rent ${ }^{(*)\left({ }^{*}\right)}$ | 6,000 |  |  |
| Other Expenses | 56,00,000 |  |  |
| Profit for the period | 1,47,84,750 |  |  |
|  | 2,52,13,250 |  | 2,52,13,250 |

(*) Prepared insurance for the year ending $31^{\text {st }}$ March 2000 was considered as the expense since it was pertaining to the Quarter ending $30^{\text {th }}$ June 2000.
$\left(^{*}\right)\left({ }^{*}\right)$ Advance rent paid on $30^{\text {th }}$ June 2000 of Rs 12,000 is not included in the expenses relating to the Quarter.

Another way of presenting the solution:
"Suggested Solutions to Exercises" in Financial Accounting for Management by Ramachandran \& Kakani Authored by Ram Kumar Kakani \& Tanmoy Chatterjee "Copyright with McGraw-Hill Education (India) Ltd, 2007"

| Malabar Constructions <br> Income Statement for the June Quarter, 2006 |  |  |
