MATC9 Ch07.1 Key Concepts 4 Worked Example

Example: Study the graph shown. Does the graph show motion toward or motion away from the motion sensor? Explain how you know.

Solution: The distance is decreasing as the time is increasing. Therefore, the motion is toward the motion sensor.

## Speed on Distance versus Time Graphs

## Practice:

1. Study the graph shown. Does the graph show motion toward or motion away from the motion sensor? Explain how you know.

2. Study the graph shown. Does the graph show motion toward or motion away from the motion sensor? Explain how you know.

Answers: 1. away from 2. towards
