Preface	xv		
PART 1: An Introduction to Economics and the Economy	1		
CHAPTER 1: Limits, Alternatives, and Choices	1		
1.1 Ten Key Concepts to Retain for a Lifetime	2		
The Individual	2		
Interaction Among Individuals	2		
The Economy as a Whole and the Standard of Living	2		
1.2 The Economic Way of Thinking	3		
Scarcity and Choice	3		
<i>Consider This—Free for All?</i>	3		
Purposeful Behaviour	4		
Marginal Analysis: Benefits and Costs	4		
<i>Consider This—Fast Food Lines</i>	4		
1.3 Theories, Principles, and Models	5		
1.4 Microeconomics and Macroeconomics	6		
Microeconomics	6		
Macroeconomics	6		
Positive and Normative Economics	6		
1.5 The Economic Problem	7		
Limited Income	7		
Unlimited Wants	7		
The Budget Line	8		
Society's Economic Problem	10		
Scarce Resources	10		
Resource Categories	10		
1.6 Production Possibilities Model and Increasing Opportunity Costs	11		
Production Possibilities Table	12		
Production Possibilities Curve	12		
Law of Increasing Opportunity Costs	14		
Optimal Allocation	14		
1.7 Economic Growth, Present Choices, and Future Possibilities	16		
A Growing Economy	16		
Present Choices and Future Possibilities	18		
		<i>Consider This—Women, the Workforce, and Production Possibilities</i>	18
		A Qualification: International Trade	19
		<i>The Last Word—Pitfalls to Sound Economic Reasoning</i>	20
		Chapter Summary	21
		Terms and Concepts	22
		Study Questions	22
		Internet Application Questions	23
		APPENDIX TO CHAPTER 1	24
		A1.1 Graphs and Their Meanings	24
		Construction of a Graph	24
		Direct and Inverse Relationships	25
		Dependent and Independent Variables	25
		Other Things Equal	26
		Slope of a Line	26
		Vertical Intercept	27
		Equation of a Linear Relationship	27
		Slope of a Nonlinear Curve	27
		Appendix Summary	28
		Appendix Terms and Concepts	28
		Appendix Study Questions	29
		CHAPTER 2: The Market System and the Circular Flow	31
		2.1 Economic Systems	31
		The Command System	31
		The Market System	32
		2.2 Characteristics of the Market System	32
		Private Property	32
		Freedom of Enterprise and Choice	33
		Self-Interest	33
		Competition	33
		Markets and Prices	34
		Technology and Capital Goods	35
		Specialization	35
		Use of Money	36
		Active, But Limited, Government	37
		2.3 Five Fundamental Questions	38
		What Will Be Produced?	38

How Will the Goods and Services Be Produced?	39	<i>Consider This—Ticket Scalping: A Bum Rap!</i>	63
Who Will Get the Output?	39	Changes in Supply, Demand, and Equilibrium	63
How Will the System Accommodate Change?	39	<i>Consider This—Salsa and Coffee Beans</i>	65
How Will the System Promote Progress?	40	3.4 Application: Government-Set Prices	66
The “Invisible Hand”	41	Price Ceilings	66
2.4 The Demise of the Command System	42	Price Floors	68
The Coordination Problem	42	<i>The Last Word—A Legal Market for Human Organs?</i>	70
<i>Consider This—The Two Koreas</i>	42	Chapter Summary	71
The Incentive Problem	43	Terms and Concepts	71
<i>Consider This—Market Failure and the Need for Government</i>	43	Study Questions	72
2.5 The Circular Flow Model	44	Internet Application Questions	73
Factor Market	44	APPENDIX: ADDITIONAL EXAMPLES OF SUPPLY AND DEMAND	74
Product Market	44	Changes in Supply and Demand	74
<i>The Last Word—Shuffling the Deck</i>	46	Lettuce	74
Chapter Summary	47	Corn and Ethanol	74
Terms and Concepts	47	Pink Salmon	75
Study Questions	48	Gasoline	76
Internet Application Questions	48	Sushi	76
CHAPTER 3: Demand, Supply, and Market Equilibrium	49	Preset Prices	77
3.1 Demand	49	Olympic Figure Skating Finals	77
Law of Demand	50	Olympic Curling Preliminaries	77
The Demand Curve	51	Appendix Summary	78
Market Demand	51	Appendix Study Questions	78
Determinants of Demand	52	MATH APPENDIX TO CHAPTER 3	80
Changes in Demand	52	A3.1 The Mathematics of Market Equilibrium	80
Changes in Quantity Demanded	55	The Demand Curve	80
3.2 Supply	56	The Supply Curve	80
Law of Supply	56	The Market Equilibrium	80
The Supply Curve	57	Example	81
Market Supply	57	PART 2: GDP, Growth, and Fluctuations	82
Determinants of Supply	57	CHAPTER 4: Introduction to Macroeconomics	82
Changes in Supply	58	4.1 Assessing the Health of the Economy: Performance and Policy	82
Changes in Quantity Supplied	59	4.2 The Miracle of Modern Economic Growth	84
3.3 Market Equilibrium	60		
Equilibrium Price and Quantity	60		
Rationing Function of Prices	62		
Efficient Allocation	62		

4.3	Savings, Investment, and Modern Economic Growth	85	5.4	Shortcomings of GDP	112
	Banks and Other Financial Institutions	86		Measurement Shortcomings	112
4.4	Uncertainty, Expectations, Shocks, and Short-Run Fluctuations	87		Shortcomings of the Well-Being Measure	114
	Demand Shocks and Flexible Prices	89		<i>The Last Word—Value Added and GDP</i>	115
	Demand Shocks and Inflexible Prices	89		Chapter Summary	116
	How Sticky are Prices?	90		Terms and Concepts	116
	<i>Consider This—Price Level Changes during the Recession of 2008–09</i>	92		Study Questions	117
	Categorizing Macroeconomic Models	92		Internet Application Questions	118
	Using Price Stickiness	92	CHAPTER 6: Economic Growth	119	
	<i>The Last Word—Will Better Inventory Management Mean Fewer Recessions?</i>	93	6.1	Economic Growth	119
Chapter Summary		94		Growth as a Goal	120
Terms and Concepts		95		Arithmetic of Growth	120
Study Questions		95		Growth in Canada	121
Internet Application Questions		96	6.2	Modern Economic Growth	122
CHAPTER 5: Measuring the Economy's Output	97			The Uneven Distribution of Growth	123
5.1	Measuring the Economy's Performance: GDP	97		Catching Up Is Possible	123
	Gross Domestic Product	98		Institutional Structures That Promote Growth	125
	A Monetary Measure	98		<i>Consider This—Economic Growth Rates Matter!</i>	125
	Avoiding Multiple Counting	98		<i>Consider This—Patents and Innovation</i>	126
	GDP Excludes Nonproduction Transactions	99	6.3	Ingredients of Growth	127
	Two Ways of Calculating GDP: Expenditures and Income	100		Supply Factors	128
	The Expenditures Approach	100		Demand Factor	128
	<i>Consider This—Stock Answers about Flows</i>	102		Efficiency Factor	128
	The Income Approach	104		Production Possibilities Analysis	128
5.2	Other National Accounts	106		<i>Consider This—Negative Growth Rates during Severe Economic Downturns</i>	130
	Gross National Product (GNP)	106	6.4	Accounting for Growth in Canada	131
	Net Domestic Product (NDP)	107		Inputs versus Productivity	131
	Net National Income at Basic Prices (NNI)	107		<i>Consider This—Women, the Labour Force, and Economic Growth</i>	132
	Personal Income (PI)	107		Quantity of Labour	132
	Disposable Income (DI)	107		Technological Advance	132
5.3	Nominal GDP versus Real GDP	108		Quantity of Capital	133
	Adjustment Process in a One-Product Economy	108		Education and Training	133
	An Alternative Method	109		Economies of Scale and Resource Allocation	133
	Real-World Considerations and Data	110	6.5	Recent Productivity Acceleration	135
	Chain-Weighted Index	111		Reasons for the Productivity Acceleration	135
				Implication: More-Rapid Economic Growth	137

Skepticism about Permanence	138	Expectations	162
What Can We Conclude?	138	Who Is Hurt by Inflation?	162
6.6 Is Economic Growth Desirable and Sustainable?	139	Who Is Unaffected or Helped by Inflation?	163
The Anti-Growth View	139	Anticipated Inflation	163
In Defence of Growth	139	Other Redistribution Issues	164
<i>The Last Word—Economic Growth in China</i>	141	7.5 Effects of Inflation on Output	165
Chapter Summary	142	Cost-Push Inflation and Real Output	165
Terms and Concepts	143	Demand-Pull Inflation and Real Output	165
Study Questions	143	Hyperinflation	166
Internet Application Questions	144	<i>The Last Word—The Stock Market and the Economy</i>	167
CHAPTER 7: Business Cycles, Unemployment, and Inflation	145	Chapter Summary	168
7.1 The Business Cycle	145	Terms and Concepts	168
Phases of the Business Cycle	146	Study Questions	169
Provincial Variations	146	Internet Application Questions	169
Causation: a First Glance	148	PART 3: Macroeconomic Models and Fiscal Policy	170
<i>Consider This—The Cause of the Recession of 2008–09</i>	148	CHAPTER 8: Basic Macroeconomic Relationships	170
Cyclical Impact: Durables and Nondurables	149	8.1 The Income-Consumption and Income-Saving Relationships	171
7.2 Unemployment	149	The Consumption Schedule	172
Measurement of Unemployment	150	The Saving Schedule	174
Types of Unemployment	151	Average and Marginal Propensities	174
Definition of Full Employment	152	Non-Income Determinants of Consumption and Saving	176
Economic Costs of Unemployment	153	More on Consumption and Saving Schedules	177
Non-Economic Costs of Unemployment	155	<i>Consider This—What Wealth Effect?</i>	178
Regional Variations	155	8.2 The Interest-Rate–Investment Relationship	179
International Comparisons	155	Expected Rate of Return	179
<i>Consider This—Unemployment during the Global Financial Crisis of 2008–09</i>	155	The Real Interest Rate	179
7.3 Inflation	157	Investment Demand Curve	180
Meaning of Inflation	157	8.3 Shifts in the Investment Demand Curve	182
Measurement of Inflation	157	Acquisition, Maintenance, and Operating Costs	182
Facts of Inflation	158	Business Taxes	182
<i>Consider This—The Consumer Price Index during Recession</i>	159	Technological Change	183
Types of Inflation	160	Stock of Capital Goods on Hand	183
<i>Consider This—Clipping Coins</i>	160	Planned Inventory	183
Complexities	161	Expectations	183
7.4 Redistribution Effects of Inflation	161	Fluctuations of Investment	184
Nominal Income and Real Income	162		

8.4	The Multiplier Effect	186		
	Rationale	187		
	The Multiplier and the Marginal Propensities	188		
	How Large Is the Actual Multiplier Effect?	189		
	<i>The Last Word—Squaring the Economic Circle</i>	190		
	Chapter Summary	191		
	Terms and Concepts	191		
	Study Questions	192		
	Internet Application Question	193		
CHAPTER 9:	The Aggregate Expenditures Model	194		
9.1	The Aggregate Expenditures Model:			
	Consumption and Saving	194		
	Assumptions and Simplifications	194		
	Consumption and Investment Schedules	195		
	Calculating GDP	196		
	Other Features of Equilibrium GDP	198		
9.2	Changes in Equilibrium GDP and the Multiplier	201		
9.3	International Trade and Equilibrium Output	202		
	Net Exports and Aggregate Expenditures	202		
	The Determinants of Imports and Exports and the Net Export Schedule	202		
	Imports and the Multiplier	203		
	Net Exports and Equilibrium GDP	204		
	International Economic Linkages	206		
	<i>Consider This—The Transmission of the Recession during the Global Economic Downturn of 2008–09</i>	207		
9.4	Adding the Public Sector	208		
	Government Purchases and Equilibrium GDP	208		
	Taxation and Equilibrium GDP	209		
	Injections, Leakages, and Unplanned Change in Inventories	212		
	<i>Consider This—Paradox of Thrift</i>	213		
9.5	Equilibrium versus Full-Employment GDP	213		
	Recessionary Expenditure Gap	213		
	<i>Consider This—The Fallout of the Global Financial Crisis and the Keynesian Explanation</i>	214		
	Inflationary Expenditure Gap	216		
	Application: The Slowdown of the Canadian Economy in 2001	216		
	Application: Full-Employment Output without an Inflationary Gap		217	
	<i>The Last Word—Say’s Law, the Great Depression, and Keynes</i>		217	
	Chapter Summary		219	
	Terms and Concepts		220	
	Study Questions		220	
	Internet Application Questions		222	
	MATH APPENDIX TO CHAPTER 9		223	
	A9.1 The Math behind the Aggregate Expenditures Model		223	
	CHAPTER 10: Aggregate Demand and Aggregate Supply		225	
	10.1 Aggregate Demand		225	
	Aggregate Demand Curve		225	
	Changes in Aggregate Demand		227	
	10.2 Aggregate Supply		230	
	Aggregate Supply in the Immediate Short Run		230	
	Aggregate Supply in the Short Run		231	
	Aggregate Supply in the Long Run		233	
	Focusing on the Short Run		234	
	Changes in Aggregate Supply		234	
	10.3 Equilibrium and Changes in Equilibrium		238	
	Increases in AD: Demand-Pull Inflation		238	
	Decreases in AD: Recession and Cyclical Unemployment		240	
	<i>Consider This—The Global Financial Crisis and the Decrease in Aggregate Demand</i>		241	
	<i>Consider This—The Ratchet Effect</i>		242	
	Decreases in AS: Cost-Push Inflation		243	
	Increases in AS: Full Employment with Price-Level Stability		243	
	<i>The Last Word—Has the Impact of Oil Prices Diminished?</i>		245	
	Chapter Summary		247	
	Terms and Concepts		248	
	Study Questions		248	
	Internet Application Questions		250	

APPENDIX TO CHAPTER 10	251	Chapter Summary	277
A10.1 The Relationship of the Aggregate Demand Curve to the Aggregate Expenditures Model	251	Terms and Concepts	278
Derivation of the Aggregate Demand Curve from the Aggregate Expenditures Model	251	Study Questions	278
Aggregate Demand Shifts and the Aggregate Expenditures Model	251	Internet Application Questions	279
Appendix Summary	253		
Appendix Study Questions	253		
CHAPTER 11: Fiscal Policy, Deficits, Surpluses, and Debt	254	PART 4: Money, Banking, and Monetary Policy	280
11.1 Fiscal Policy and the AD–AS Model	254	CHAPTER 12: Money, Banking, and Money Creation	280
Expansionary Fiscal Policy	254	12.1 The Definition and Functions of Money	281
Contractionary Fiscal Policy	256	12.2 The Components of the Money Supply	282
Policy Options: <i>G</i> or <i>T</i> ?	259	Money Definition <i>M1</i>	282
11.2 Built-In Stability	259	Money Definition <i>M2</i>	284
Automatic or Built-in Stabilizers	260	Money Definition <i>M2+</i> and <i>M2++</i>	284
Evaluating Fiscal Policy	261	12.3 What Backs the Money Supply?	285
Cyclically Adjusted Budget	261	Money as Debt	285
<i>Consider This—Automatic Stabilizers and Budget Deficits during Severe Recession</i>	263	Value of Money	286
Recent Canadian Fiscal Policy	264	<i>Consider This—Are Credit Cards Money?</i>	286
11.3 Problems, Criticisms, and Complications	265	Money and Prices	287
Problems of Timing	265	12.4 The Canadian Financial System	288
Political Considerations	266	Canada’s Chartered Banks	289
Future Policy Reversals	266	Making Loans	289
Offsetting Provincial and Municipal Finance	266	Other Financial Intermediaries	289
Crowding-Out Effect	266	Cheque Clearing	290
Fiscal Policy in the Open Economy	268	12.5 Chartered Banks and the Creation of Money	291
<i>Consider This—Financial Crisis in the U.S. Spills Over into Canada</i>	268	The Fractional Reserve System	291
Current Thinking on Fiscal Policy	269	Illustrating the Idea: the Goldsmiths	291
11.4 Deficits, Surpluses, and the Federal Debt	270	Significant Characteristics of Fractional Reserve Banking	291
<i>Consider This—The Federal Deficit Fallout from the Global Financial Crisis</i>	270	A Single Chartered Bank	292
False Concerns	272	Formation of a Chartered Bank	292
<i>Consider This—Federal and Provincial per Capita Net Debt, 2008</i>	273	Deposits in the Bank of Canada	294
Substantive Issues	273	Money-Creating Transactions of a Chartered Bank	295
<i>The Last Word—The Leading Indicators</i>	276	Profits, Liquidity, and the Overnight Lending Rate	297
		12.6 The Banking System: Multiple-Deposit Expansion	298
		The Banking System’s Lending Potential	298

12.7 The Monetary Multiplier	300	Inflation Targeting	330
Reversibility: The Multiple Destruction of Money	302	<i>Consider This—“Pushing on a String”</i>	
<i>The Last Word—The U.S. Bank Panics</i>		<i> during Severe Recession</i>	331
<i> of 1930 to 1933</i>	302	13.7 Monetary Policy and the International Economy	331
Chapter Summary	304	Net Export Effect	332
Terms and Concepts	305	Macroeconomic Stability and the Trade Balance	332
Study Questions	305	<i>The Last Word—Mortgage Debt Crisis:</i>	
Internet Application Questions	307	<i> the Fed Responds</i>	333
		Chapter Summary	334
CHAPTER 13: Interest Rates and Monetary Policy	308	Terms and Concepts	335
13.1 The Market for Money and the		Study Questions	336
Determination of Interest Rates	308	Internet Application Questions	337
The Demand for Money	309	CHAPTER 14: Financial Economics	338
The Equilibrium Interest Rate	311	14.1 Financial Investment	338
Interest Rates and Bond Prices	311	Present Value	339
13.2 Functions of the Bank of Canada	312	14.2 Some Popular Investments	341
Bank of Canada Independence	313	Stocks	342
Consolidated Balance Sheet of the Bank of Canada	313	Bonds	342
Assets	313	Mutual Funds	343
Liabilities	314	Calculating Investment Returns	343
13.3 Goals and Tools of Monetary Policy	314	Asset Prices and Rates of Return	344
Tools of Monetary Policy	314	Arbitrage	344
Open-Market Operations	315	14.3 Risk and Financial Investments	345
The Bank Rate and the Overnight Lending Rate	319	Risk and Portfolio Diversification	345
Relative Importance	319	Comparing Risky Investments	346
13.4 Targeting the Overnight Lending Rate	320	Relationship of Risk and Average Expected Rates	347
Expansionary Monetary Policy	321	14.4 Financial Assets and Non-Diversifiable Risk	349
<i>Consider This—The Bank of Canada as a Sponge</i>	321	<i>Consider This—The Global Financial Crisis</i>	
Restrictive Monetary Policy	322	<i> and the Stock Market</i>	350
The Taylor Rule	322	<i>Consider This—Does Ethical Investing</i>	
13.5 Monetary Policy, Real GDP, and Price Level	323	<i> Increase Returns?</i>	352
Cause–Effect Chain: The Transmission Mechanism	323	An Increase in the Risk-Free Rate	352
Effects of an Expansionary Monetary Policy	326	<i>The Last Word—Why Do Index Funds</i>	
Effects of a Restrictive Monetary Policy	327	<i> Beat Actively Managed Funds</i>	354
Monetary Policy: Evaluation and Issues	328	Chapter Summary	355
Recent Monetary Policy in Canada	328	Terms and Concepts	356
<i>Consider This—Monetary Policy during</i>		Study Questions	356
<i> Financial Crises</i>	329	Internet Application Questions	357
13.6 Problems and Complications	330		
Lags	330		
Cyclical Asymmetry	330		

PART 5: The Long Run and Current Issues in Macro Theory and Policy	358	PART 6: International Economics	379
CHAPTER 15: Long-Run Macroeconomic Adjustments	358	CHAPTER 16: International Trade	379
15.1 From the Short Run to the Long Run	358	16.1 Canada and International Linkages	379
Short-Run Aggregate Supply	359	Canada and World Trade	380
Long-Run Aggregate Supply	360	Rapid Trade Growth	383
Long-Run Equilibrium in the AD–AS Model	360	<i>Consider This—The Global Financial Crisis and the Contraction of International Trade</i>	383
15.2 Applying the Long-Run AD–AS Model	361	Participants in International Trade	384
Demand-Pull Inflation in the Long-Run AD–AS Model	361	16.2 The Economic Basis for Trade	385
Cost-Push Inflation in the Long-Run AD–AS Model	362	Specialization and Comparative Advantage	385
Recession and the Long-Run AD–AS Model	363	The Basic Principle	385
<i>Consider This—Deep Recession and Policy Intervention</i>	364	Two Isolated Nations	386
Ongoing Inflation in the Long-Run AD–AS Model	365	Specialization Based on Comparative Advantage	387
15.3 The Inflation–Unemployment Relationship	367	Terms of Trade	388
Short-Run Tradeoff	367	Gains from Specialization and Trade	389
Aggregate Supply Shocks and the Phillips Curve	369	Trade with Increasing Costs	391
15.4 The Long-Run Phillips Curve	370	The Case for Free Trade Restated	392
The Short-Run Phillips Curve	371	16.3 Supply and Demand Analysis of Exports and Imports	392
Expectation and the Long-Run Vertical Phillips Curve	372	Supply and Demand in Canada	393
Disinflation	373	Supply and Demand in the United States	394
15.5 Taxation and Aggregate Supply	374	Equilibrium World Price, Exports, and Imports	395
Taxes and Incentives to Work	374	16.4 Trade Barriers	396
Incentives to Save and Invest	374	Economic Impact of Tariffs	397
The Laffer Curve	374	Economic Impact of Quotas	399
Criticisms of the Laffer Curve	375	Net Costs of Tariffs and Quotas	399
<i>The Last Word—Do Tax Increases Reduce Real GDP?</i>	376	16.5 The Case for Protection: a Critical Review	400
Chapter Summary	377	Self-Sufficiency Argument	400
Terms and Concepts	377	Diversification for Stability Argument	400
Study Questions	378	<i>Consider This—Shooting Yourself in the Foot</i>	400
Internet Application Questions	378	Infant-Industry Argument	401
		Protection against Dumping Argument	402
		Increased Domestic Employment Argument	402
		Cheap Foreign Labour Argument	403
		16.6 Multilateral Trade Agreements and Free-Trade Zones	404
		Reciprocal Trade Agreements	404
		General Agreement on Tariffs and Trade (GATT)	405
		World Trade Organization (WTO)	405

The European Union (EU)	406	17.4 Fixed Exchange Rates	425
North American Free Trade Agreement (NAFTA)	407	Use of Reserves	426
<i>The Last Word—Fair-Trade Products</i>	407	Trade Policies	427
Chapter Summary	409	Exchange Controls and Rationing	427
Terms and Concepts	410	Domestic Macroeconomic Adjustments	427
Study Questions	410	17.5 The Current Exchange-Rate System: the Managed Float	428
Internet Application Questions	411	<i>The Last Word—Speculation in Currency Markets</i>	430
CHAPTER 17: Exchange Rates and the Balance of Payments	412	Chapter Summary	431
17.1 Financing International Trade	412	Terms and Concepts	432
17.2 The Balance of International Payments	413	Study Questions	432
Current Account	414	Internet Application Questions	433
Capital and Financial Account	415	Credits	435
Official Settlement Account	416	Glossary	437
Why the Balance of Payments Balances	416	Index	455
Payments Deficits and Surpluses	417		
<i>Consider This—Global Recession and the Deterioration of Canada’s Current Account</i>	418		
17.3 Foreign Exchange Markets: Flexible Exchange Rates	419	WEB SITE BONUS CHAPTERS (FOUND AT WWW.MCGRAWHILLCONNECT.CA)	
Flexible Exchange Rates	419	CHAPTER 15W: Current Issues in Macro Theory and Policy	
Depreciation and Appreciation	420	CHAPTER 17W: The Economics of Developing Countries	
Determinants of Exchange-Rate Changes	420		
Advantages of Flexible Rates	423		
<i>Consider This—Purchasing Power Parity: the Case of Hamburgers</i>	424		
Disadvantages of Flexible Exchange Rates	425
