PART 1 INTRODUCTION	1
<i>Chapter 1 Economics and the Economy</i>	<i>2</i>
1.1 Resource Allocation	3
Exploring the What, How, and For Whom	3
1.2 Dynamic Resource Allocation	4
1.3 Scarcity and the Competing Use of Resources	6
The Economy's Production Possibilities	6
Expanding the Production Possibilities	8
Opportunity Cost and Comparative Advantage as Guiding Principles	8
1.4 The Role of the Market	9
The Command Economy	9
The Invisible Hand	10
The Mixed Economy	10
1.5 Positive and Normative Economics	10
1.6 An Economist's Credo	12
1.7 Micro and Macro Economics	15
<i>Chapter 2 The Tools of Economic Analysis</i>	<i>19</i>
2.1 Models and Theories	19
2.2 Data	20
Time-Series Data	20
Cross-Section Data	21
2.3 Index Numbers	23
Index Numbers as Averages	24
The Consumer Price Index	25
Nominal and Real Variables	25
Quality and Technological Change	25
Measuring Change in Economic Variables	26
2.4 Economic Models and Analysis	26
Evidence	27
Fitting Lines through the Scatter Plot	27
Interpreting Linear Relationships	29
Non-Linear Relationships	30
Other Things Being Equal	30
2.5 Theories and Evidence: Accepting and Rejecting Theories	31
2.6 The Great Canadian Data Hunt	32
2.7 Popular Criticisms of Economics and Economists	32
<i>Chapter 3 Demand, Supply, and the Market</i>	<i>37</i>
3.1 The Market	38
3.2 Demand, Supply, and Equilibrium	38
Other Things Being Equal— <i>Ceteris Paribus</i>	39
The Equilibrium Price	39
3.3 Demand and Supply Curves	40
Computing the Market Equilibrium	41

3.4	Behind the Demand Curve	41
	The Prices of Related Goods	42
	Consumer Incomes	42
	Tastes and Networks	43
	Expectations	43
3.5	Shifts in the Demand Curve	43
3.6	Behind the Supply Curve	45
	Technology	45
	Input Costs	46
	Competing Products	46
3.7	Shifts in Supply	46
3.8	Simultaneous Shifts in Supply and Demand: Applications	47
3.9	Free Markets and Managed Markets	50
	Price Ceilings as Rent Controls	50
	Price Floors	51
	Quotas	51
3.10	Summing Individual Decisions	54
3.11	What, How, and For Whom	55
 PART 2 INTRODUCTION TO MACROECONOMICS		 59
<i>Chapter 4 Measuring National Economic Activity and Performance</i>		60
4.1	Three Main Indicators of Macroeconomic Activity	61
4.2	Canadian Economic Performance	64
4.3	The Circular Flow and National Accounts	68
	Measuring GDP	69
	The Expenditure Approach to GDP	70
	The Income Approach to GDP	72
	GDP and GNP	75
4.4	Nominal and Real GDP and the GDP Deflator	76
	The GDP Deflator	76
4.5	Per Capita Real GDP	79
	Limitations of GDP	80
 <i>Chapter 5 Output, Business Cycles, and Employment</i>		 86
5.1	A Short-Run Aggregate Demand and Aggregate Supply Model	87
5.2	Equilibrium Output and Potential Output	92
5.3	Business Cycles and Output Gaps	94
5.4	Output Gaps and Unemployment Rates	97
5.5	Adjustments to Output Gaps	100
5.6	The Role for Macroeconomic Policy	102
 PART 3 AGGREGATE EXPENDITURE AND OUTPUT		 107
<i>Chapter 6 Output, Aggregate Expenditure, and Aggregate Demand</i>		108
6.1	Aggregate Demand and Output in the Short Run	108
6.2	Consumption, Saving, and Investment	110
	Consumption Expenditure	110
	Saving	113
	Investment Expenditure	114
6.3	Aggregate Expenditure and Equilibrium Output	115
	Equilibrium Output	117

Adjustment towards Equilibrium	119
Equilibrium Output and Employment	119
6.4 Another Approach: Planned Saving Equals Planned Investment	120
Planned versus Actual	121
6.5 The Multiplier: Changes in Aggregate Expenditure and Equilibrium Output	122
The Size of the Multiplier	125
The Multiplier and the MPS	126
6.6 The Paradox of Thrift	127
6.7 Equilibrium Output and Aggregate Demand	128
Summary Box	129
Chapter 7 Government and International Trade	136
7.1 Government and International Trade in Canada	137
7.2 Government and the Circular Flow	138
7.3 Government Expenditure, Taxes, and Equilibrium Real GDP	140
The Effect of Net Taxes on Output	142
The Effect of Government Expenditure on Equilibrium Output	144
The Combined Effects of Government Expenditure and Taxation	144
The Balanced Change in Government Revenue and Expenditure	144
The Multiplier Revisited	145
7.4 The Government's Budget and Fiscal Policy	146
Investment, Saving, and the Budget	148
7.5 Fiscal Policy and Government Budget Balances	149
The Structural Budget Balance	150
7.6 Automatic and Discretionary Fiscal Policy	153
Active or Discretionary Fiscal Policy	153
7.7 The Public Debt and the Budget Balance	155
7.8 International Trade and Income Determination	157
Net Exports and Equilibrium Income	159
The Multiplier in an Open Economy	161
Exports and Equilibrium Output	161
Summary Box	162
7.9 Equilibrium Output and Aggregate Demand with Government and International Trade	163
PART 4 FINANCIAL MARKETS AND ECONOMIC ACTIVITY	169
Chapter 8 Money, Banking, and the Money Supply	170
8.1 Money and the Functions of Money	171
The Medium of Exchange	171
Other Functions of Money	172
Different Kinds of Money	172
8.2 Modern Banking in Canada	174
Bank Competition and Co-operation	178
Banking Operations and Profits	179
8.3 How Banks Create Money	180
Financial Panics	182
8.4 The Monetary Base and the Money Multiplier	182
The Money Multiplier	183
How Big Is the Money Multiplier?	184
Monetary Policy	187
8.5 Measures of the Money Supply	187

Chapter 9	<i>Financial Markets, Interest Rates, and the Monetary Transmission Mechanism</i>	193
9.1	Portfolio Choices between Money and Other Assets	194
9.2	Bond Prices and Interest Rates	194
	Bond Prices, Yields, and Interest Rates	197
9.3	The Demand for Money Balances	199
	Motives for Holding Money	199
	The Transactions Motive	199
	The Precautionary Motive	200
	The Asset Motive	200
	The Demand for Money Balances: Prices, Real Income, and Interest Rates	201
	The Rise in Money Holdings from 1995 to 2005	202
9.4	Financial Market Equilibrium and Interest Rates	203
	Money Market Equilibrium	204
9.5	Money, Aggregate Demand, and National Income	207
	Consumption Expenditure Revisited	207
	Investment Expenditure	208
	Net Exports	212
	The Transmission Mechanism	213
	Business Cycles, Output Gaps, and Policy Issues	215
Chapter 10	<i>Central Banking and Monetary Policy</i>	220
10.1	Central Banking and the Bank of Canada	221
10.2	Central Bank Operating Techniques	223
	Reserve Requirements	223
	Open-Market Operations	224
	The Bank Rate	226
	Money Supply versus Interest Rates	226
10.3	Monetary Policy Targets and Instruments in Canada	228
	Bank of Canada Operating Techniques	229
	Special Purchases and Sales	231
	Government Deposit Accounts	235
10.4	Monetary Policy Rules	236
	A Taylor Rule	236
	Policy Rules When Prices Change	238
10.5	The Long-Run Neutrality of Money	240
10.6	Monetary Policy Indicators	241
PART 5	OUTPUT, INFLATION, AND GROWTH	249
Chapter 11	<i>Monetary Policy and Fiscal Policy in the Short Run</i>	250
11.1	Prices, Aggregate Expenditure, and Aggregate Demand	251
11.2	The Slope and Position of the AD Curve	254
11.3	Short-Run Equilibrium Output and Prices	258
	Changes in Short-Run Equilibrium	258
	Short-Run Equilibrium and Economic Performance	260
11.4	The Effects of Fiscal Policy on AD	262
	Fiscal Policy Objectives and Instruments	262
	Fiscal Policy and the Public Debt	264
	Budget Balances and Outstanding Debt	265
11.5	The Effects of Monetary Policy on AD	266
11.6	Interactions between Monetary and Fiscal Policy	268
11.7	Recent Economic Performance and Policy in Canada	269

Chapter 12	<i>Aggregate Supply, Inflation, and Adjustments to Shocks</i>	277
12.1	Aggregate Supply and Potential Output	278
12.2	The Equilibrium Inflation Rate	279
	What Determines the Inflation Rate?	280
12.3	Labour Markets and Wage Rates	283
	Adjusting Labour Input	283
	Wage Adjustment	284
	Adjustments over Time	284
12.4	The Phillips Curve and Money Wage Rate Changes	285
12.5	Wage Rates and Short-Run Aggregate Supply	289
12.6	The Adjustment from Short-Run Output to Potential Output	291
12.7	Shifts in Aggregate Supply	294
	A Permanent Aggregate Supply Shock	294
	A Temporary Supply Shock	294
12.8	The Role for Monetary Policy	296
	Trade-Offs in Monetary Policy Objectives	298
	Flexible Inflation Targeting	299
Chapter 13	<i>Economic Growth</i>	304
13.1	The Pattern of Economic Growth across Countries	305
	GDP and Economic Output	306
	GDP and Happiness	306
13.2	Growth in Potential Output	306
13.3	Growth in Per Capita GDP	310
	Factor Contributions and Scale Economies	310
13.4	Malthus, Technology, and Growth in Output per Worker	315
	Technical Knowledge	316
	Research and Development	318
13.5	Neoclassical Growth Theory and the Convergence Hypothesis	318
	Growth in the OECD	319
13.6	Recent Growth Theories and Policy Issues	322
	The Costs of Growth	324
PART 6	INTERNATIONAL TRADE AND FINANCE	331
Chapter 14	<i>The Balance of Payments and Exchange Rates</i>	332
14.1	The Balance of Payments	333
14.2	Determinants of the Current Account	334
	Exports	335
	Imports	335
	Other Items in the Current Account	336
14.3	The Capital Account	336
14.4	The Foreign Exchange Market	338
14.5	Exchange Rate Regimes	341
	Fixed Exchange Rates	341
	Floating or Flexible Exchange Rates	342
14.6	Fixed versus Flexible Exchange Rates	343
	Robustness	343
	Volatility	344
	Financial Discipline	344
14.7	International Policy Co-ordination	346
	The Externality Argument for Co-ordination	347
	The Reputation Argument for Co-ordination	347
14.8	The European Monetary System and the Euro	347
	The ERM in Practice	348
	From the ERM to the Euro	348

Chapter 15	<i>International Trade</i>	354
15.1	Trade Patterns	355
	The World Economy	355
	Developed and Less Developed Economies	356
	The Commodity Composition of Trade	356
15.2	Trade Issues for Canada and the World	358
15.3	Comparative Advantage	360
	The Gains from Trade	361
	Exchange Rates	362
	Other Reasons for Comparative Advantage	363
	Intra-Industry Trade	364
15.4	Does Everyone Gain from Trade?	365
	Refrigeration	365
	The United Kingdom Auto Industry	365
15.5	The Economics of Protectionism	366
	Markets and Tariffs	366
	Costs and Benefits of a Tariff	367
	Production Subsidies	367
15.6	Good and Bad Arguments for Protection	368
	Popular (Mostly Bad) Arguments for Restricting Trade	368
	Sustainable Arguments for Restricting Trade	370
	So Why Do We Have Tariffs?	371
15.7	Institutions Governing Trade	372
	The WTO and GATT	372
	NAFTA and the EU	373
Chapter 16	<i>Open Economy Macroeconomics</i>	378
16.1	What Determines Flexible Exchange Rates?	379
	The Long Run	379
	The Short Run	381
	Exchange Rates and Interest Parity	381
	Changes in Expectations and Economic Conditions	383
16.2	Monetary and Fiscal Policy with Flexible Exchange Rates	385
	Monetary Policy	385
	Fiscal Policy	385
	Policy Co-ordination	386
16.3	The Canadian Dollar, 1990 to 2006	387
16.4	Fixed Exchange Rates	389
	The Balance of Payments and the Money Supply	389
	The Role of Capital Mobility	390
	Adjustment to Shocks	390
	A Shock from Abroad	391
16.5	Monetary and Fiscal Policy under Fixed Exchange Rates	393
	Monetary Policy	393
	Fiscal Policy with Fixed Exchange Rates	393
16.6	The Effects of Devaluation	394
	The Short Run	394
	The Medium Run	395
	The Long Run	395
	Devaluation and Adjustment	396
	Summing Up	396
	Glossary	401
	Index	407
