Macroeconomics 9e

Jackson | McIver | Wilson | McConnell | Brue

www.mhhe.com/au/jackson9e_macro

ISBN: 9780071016223 (Mandatory Pack with Connect Plus)

Publication date: May 2011

Subject area: Principles of Macroeconomics

This is the ninth edition of *Macroeconomics* (Jackson/McIver/Wilson), the Australian adaptation of the US original *Macroeconomics* (McConnell, Brue) which is part of the number one bestselling economics textbook suite in the world.

Macroeconomics is appropriately pitched for first-year students of economics or those taking it as a first subject in macroeconomics. Each concept is taught in three ways – verbally, visually and practically – to ensure that all learning styles are catered for.

This edition retains its comprehensive coverage but has been thoroughly updated to reflect significant issues, such as the GFC, and edited to ensure the language and tone of the text are accessible.

Pedagogical features throughout the book are designed to encourage deeper learning and skills in critical analysis and theory is explained in ‘real-world’ examples.

Key features

- Connect Plus: Giving lecturers more time and helping to create a more integrated learning environment
- Pitched at ‘every student’: rigorous and thorough but focused on making core concepts easier to understand through catering to all learning styles.
- Adapted from USA market leading text: The Jackson series are originally derived from the US runaway market leader by McConnell and Brue: it’s a proven approach and works for students

Additional resources

- Test Bank, Instructor Manual, PowerPoint Slides and Student Revision Tool
- A small suite of articles and related worksheet questions

Learning Solutions
Your Course, Your Way

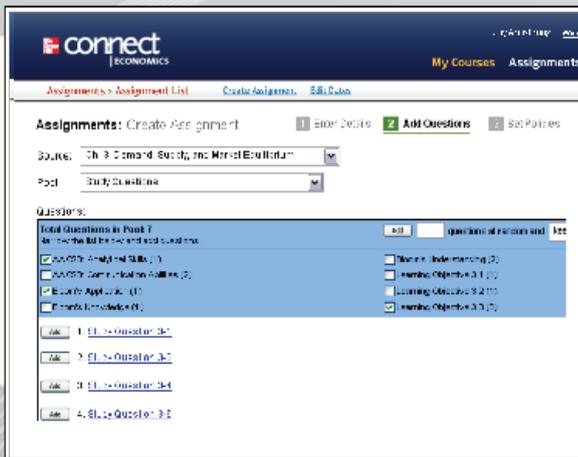

Students can connect to knowledge, connect to learning, connect to their futures.

McGraw-Hill Connect

A web-based assignment and assessment platform that gives you the power to create assignments, practice tests and quizzes online, while saving you time!

Connect provides the problems directly from the end-of-chapter material in your McGraw-Hill textbook, so you can easily create assignments and tests and deliver them to your students. Connect grades assignments automatically, provides instant feedback to students, and securely stores all student results. Detailed results let you see at a glance how each student performs, and easily track the progress of every student in your course.

Create Assignments

With 4 easy steps, set up assignments using end-of-chapter questions from your McGraw-Hill textbook and deliver it to your students...all online.

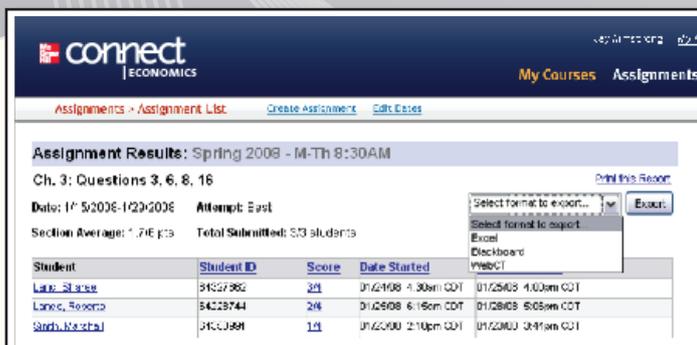

Students Take Assignments & Receive Instant Feedback

Connect helps you close the feedback loop on students' homework and reduce the time you spend grading. Once an assignment is completed, students can see immediately how they've performed and receive feedback on each question.

a. What is the equilibrium price? \$4 ✓ What is the equilibrium quantity? 75000 ✓
Fill in the surplus-shortage column. For negative numbers be sure to include a negative sign in front of the number.

b. Graph the supply of wheat and the demand for wheat. Be sure to label the axes of your graph correctly. Label equilibrium price and the equilibrium quantity.

Change grade: 0

View Grades & Reports

Track each student's progress in your Connect Grade Reports. Student results on each assignment automatically feed to the grade reports so you can track student or class progress on any concept. Learning objective tags help you track course outcomes and aid in Assurance of Learning.
