

## 15 Text Processing and File Input/Output

### 15.1

```
1 import CSLib.*;
2 import java.io.*;
3
4 public class CopyClient {
5     public static void main (String[] args) throws IOException {
6         InputBox in = new InputBox();
7         in.setPrompt("Enter filename: ");
8         String fname = in.readString();
9         new Copy(fname).copy();
10    }
11 }
```

### 15.2

(Nothing interesting to show.)
