

Amber, Dave. 2001. "Converging on Marine Reserves" *The Scientist* 15 (8) April 16, 2001. Research and policy point to protected ocean parks to protect threatened marine resources.

Ariyoshi, Rita. 1997. "Halting a Coral Catastrophe," *Nature Conservancy* 47(1):20-25. Cyanide fishing is decimating the IndoPacific's species-rich reefs but steps are being taking to turn the tide.

Ayres, Ed. 2003. "Mapping the Nature of Diversity." *World-Watch* 16 (2): 30-35. A landmark project reveals a correspondence between indigenous land use and the survival of natural areas.

Backes, David (ed). 2001. *The Meaning of Wilderness: Essential Articles and Speeches by Sigurd F. Olson*, Univ. of Minnesota Press. Examines the evolution of the wilderness ethic in one of the leaders in the American Conservation movement.

Bakker, V.J. and D.H. Van Vuren. 2004. "Gap-crossing decisions by the red squirrel, a forest-dependent mammal." *Conservation Biology* 18 (3): 689-697. In fragmented landscapes, species must traverse potentially dangerous territory to move between habitat patches.

Bardsley, Douglas. "Risk alleviation via in situ agrobiodiversity conservation: drawing from experiences in Switzerland, Turkey and Nepal." *Agriculture, Ecosystems & Environment* v. 99 (3): 149-57

Barringer, Mark Daniel. 2002. *Selling Yellowstone: Capitalism and the Construction of Nature*. Univ of Kansas Press. Examines the role of business in creation and development of our national parks.

Bass, Rick. 2004. "The Fight for Canada's Muskwa-Kechika." *OnEarth* 20-27. A plan to save 15.5 million acre of spectacular wilderness in British Columbia's northern Rockies is starting to unravel.

Bass, Rick (ed). 2003. *The Roadless Yaak: Reflections and Observations About One of Our Last Great Wild Places* Lyons Press. A collection of essays about the Yaak Valley of northwestern Montana

Bass, Rick. 1997. *The Lost Grizzlies : A Search for Survivors in the Wilderness of Colorado*. Mariner Books. Bass, grizzly expert Doug Peacock and biologist Dennis Sizemore search for grizzly bears in Colorado's San Juan mountains.

Beatley, Timothy, et al. 2002. *An Introduction to Coastal Zone Management 2<sup>nd</sup> ed.* Island Press. An updated overview of coastal planning and management.

Berger, Joel. 2004. "The Last Mile: How to Sustain Long-Distance Migration in Mammals." *Conservation Biology* 18 (2): 320-332. Comparison of terrestrial mammals from five continents indicate that remnant long-distant migrants have poor long-term prospects.

Berkes, Fikret. 2004. "Rethinking Community Based Conservation." *Conservation Biology* 18 (3): 621-631. Suggests conceptual shifts—toward a systems view, toward the inclusion of humans in the ecosystem, and toward participatory approaches to ecosystem management that are essential in community-based conservation.

Beston, Henry. 2003. *The Outermost House*. Henry Holt & Co. A reprint of a classic set of essays about living at the edge of the sea on Cape Cod.

Brandon, K. et al. 1998. *Parks in Peril: People, Politics and Protected Areas*. Island Press. A report from the Nature Conservancy on its experiences in protecting natural areas in Latin America and the Caribbean.

Brooks, T. M. 2004. "Protected Areas and Species." *Conservation Biology* 18 (3): 616–618. Biogeography is essential in conservation planning.

Brosius, J. P. 2004. "Indigenous Peoples and Protected Areas at the World Parks Congress." *Conservation Biology* 18 (3): 609- 612. Indigenous people protest conservation plans developed without their participation.

Bruner, A.G., et al. 2001. "Effectiveness of parks in protecting tropical biodiversity." *Science* 291: 125-128. Community-based conservation sometimes works better than simply putting up a fence and saying, "this is a park."

Burke, Laretta, et al. 2002. *Reefs at Risk in Southeast Asia*. World Resources Institute. Coral reefs rival tropical rainforests in species richness, but 58 percent of all reefs are threatened by human activities.

Burnham, Philip. 2000. *Indian Country, God's Country: Native Americans and the National Parks*. Island Press. Traces the complex relationship between Native Americans and our National Parks.

Cairns, John Jr. 1995. *Rehabilitating Damaged Ecosystems 2<sup>nd</sup> ed.* Island Press. A handbook for practitioners in restoration ecology.

Clark, F.S., R.B. Slusher. 2000. "Using spatial analysis to drive reserve design: A case study of a national wildlife refuge in Indiana and Illinois (USA)." *Landscape Ecology* 15: 75-84. Discusses reserve design principles for oak savanna restoration,

Clevenger, A. P. and N. Waltho. 2004. "Performance indices to identify attributes of highway crossing structures facilitating movement of large mammals" *Biological Conservation* 121 (3): 453-464. Bridges, culverts and other wildlife corridors can be

effective in connecting isolated habitats, but human dimensions must be considered as well.

Coram, Robert. 1995. "National Marine Sanctuaries," *Audubon* 97 (3): 38-45. Underwater refuges may be the best idea the U.S. has ever had.

Cox, P. 1997. "Ecocolonialism and indigenous-controlled rainforest preserves in Samoa." *Ambio* 26 (2): 84-89. Local interests may be at odds with biological preservation.

Craighead, John J., et al. 1995. *The Grizzly Bears of Yellowstone*. Island Press. The results of 31 years of groundbreaking but controversial wildlife research.

Cronon, William. 2003. "The Riddle of the Apostle Islands." *Orion* 22 (3): 36-42. How do you manage a wilderness full of human history?

Cronon, William (ed). 1996. *Uncommon Ground: Rethinking the Human Place in Nature*. W.W.Norton. A collection of essays by noted environmental historians and philosophers about our attitudes toward nature.

Daby, D. 2003. "Effects of seagrass bed removal for tourism purposes in a Mauritian bay" *Environmental Pollution* 125(3) (2003) 313-324. Removing sea grass so tourists can swim comfortably damages aquatic ecosystems.

Daehler, C.C., et al. 2004. "A Risk-Assessment System for Screening Out Invasive Pest Plants from Hawaii and Other Pacific Islands." *Conservation Biology* 18 (2): 360-369. A screening system can determine which exotic species are most problematic.

Dombeck, Michael P., Christopher A. Wood, and Jack E. Williams. 2003. *From Conquest to Conservation: Our Public Lands Legacy*. Island Press. Examines the history of public lands in the United States and the challenges in managing them.

du Toit, Johan T. et al. 2003. *The Kruger Experience: Ecology and Management of Savanna Heterogeneity*. Island Press. Records a century of research and management of Kruger National Park in South Africa.

Egan, Dave and Evelyn Howell (eds). 2000. *The Historical Ecology Handbook: A Restorationist's Guide to Reference Ecosystems*. Island Press. To determine what needs to be restored and how to do it, we need to understand what ecosystems were like before they were disturbed.

Easthouse, Keith. 2001. "A Sanctuary Threatened." *Forest* (May/June 2001): 18-28. A plea to save the Arctic national Wildlife Refuge.

Ebersole, Rene S. 2001. "The New Zoo." *Audubon* 103 (6): 64-70. Zoos are saving wildlife in wild places.

Eckstrom, Christine K. 1996. "A wilderness of water: Pantanal." *Audubon* 98 (2): 54-62. The world's largest wetland is threatened by development.

Engel, J. Ronald. 1992. "Biosphere Reserves as Sacred Space." in *Finding Home* Peter Sauer (ed). Beacon Press. P 81-93. Explores the relation between people and their environment.

Epstein, N., et al. 2004. "Alleviating impacts of anthropogenic activities by traditional conservation measures: can a small reef reserve be sustainably managed?" *Biological Conservation*. 121 (2): 243-255. In small marine preserves, mere enclosure may not be enough to preserve communities; active restoration approaches, such as the "gardening concept" may be needed.

Faber, Scott. 1996. *On Borrowed Land: Public Policies for Floodplains*. Island Press. Ecological, economic, and legal issues of land use in floodplains, with case studies and suggestions for making floodplains safe for development through locally based planning and flood hazard management.

Falk, Donald A. et al. 1996. *Restoring Diversity: Strategies for Reintroduction of Endangered Plants*. Island Press. Sometimes it isn't a simple matter to restore rare species.

Fernside, P.M. and J. Ferraz. 1995. "A conservation gap analysis of brazil Amazonian vegetation." *Conservation Biology* 9 (5): 1134-1147. An application of GIS to landscape analysis.

Finkelstein, M. 1992. "National Park Dreams," *Borealis*, 32-42. The Canadian Parks and Wilderness Society's quarterly surveys the state of parks and preserves in Canada and prospects of completing the system of protected areas proposed in the national Green Plan.

Fischman, Robert L. 2004. *The National Wildlife Refuges: Coordinating A Conservation System Through Law*. Island Press. Examines the laws and policies governing wildlife refuges.

France, Lesley. 1997. *The Earthscan Reader in Sustainable Tourism*. Earthscan. What is sustainable tourism and how can it be applied?

Friederici, Peter (ed). 2003. *Ecological Restoration of Southwestern Ponderosa Pine Forests*. Island Press. A collection of views on the need for and practice of restoration in this important biome.

Gardner, F. 1991. "Who Benefits from Ecotourism?" *Earth Island Journal* 6 (2): 30-32. A hard look at the effects of ecotourism in Guatemala. See also article by Michael Passoff in same issue.

Geatz, R. 1999. "The Great Rivers of Yunnan," *Nature Conservancy* 49(3):10-17. In a remote, mountainous region of western Yunnan, four of the great rivers of Southeast Asia run in parallel through a magnificent but relatively unknown parkland.

Gell, Fiona R. and M. Callum. 2003. "Benefits beyond boundaries: The fishery effects of marine reserves." *Trends in Ecology and Evolution*. 18: 448-455. No take zones help replenish adjacent fish stocks.
