Fisher, Roger, et al. 1991. *Getting to Yes: Negotiating Agreement Without Giving In* (2nd ed) Penguin Books. A classic in negotiation techniques.

Fowler, Alan. 1997. *Striking a Balance: A Guide to Enhancing the Effectiveness of Non-Governmental Organizations in International Development*. Earthscan

French, H. 1999. "Challenging the WTO," *Worldwatch Magazine* 12(6): 22-27. A call for reform of the WTO.

Freyfogle, Eric T. 2003. *The Land We Share: Private Property and the Common Good*. Island Press. Argues that owning property entails community obligations that restrict how it can be used.

Goldberg, S. B. et al. 2003. *Dispute Resolution: Negotiation, Mediation, and Other Processes*. Aspen Pub. A case book on dispute resolution.

Gorden, Morton and Marsha Gordon. 1972. *Environmental Management: Science and Politics*. Allyn and Bacon. A classic but still useful introduction to environmental policy.

Grumbine, R. Eward (ed). 1994. *Environmental Policy and Biodiversity*. Island Press. Interviews and articles by many experts in the fields of policy and conservation biology.

Gunderson, Lance H. and C. S. Holling (eds). 2001. *Panarchy: Understanding Transformations in Systems of Humans and Nature*. Island Press. A new work by the originators of resilience theory.

Gunderson, Lance H. and Lowell Pritchard Jr. 2002. *Resilience and the Behavior of Large-Scale Systems*. Island Press. An innovative examination of how ecological resilience and human adaptability interact in complex, regional-scale systems.

Gunderson, Lance H., C. S. Holling, and S. Light (eds). 1995. *Barriers and Bridges to the Renewal of Ecosystems and Institutions*. Columbia University Press. A landmark publication in ecosystem management and institutional change.

Gupta, J., et al. 2003. "The role of scientific uncertainty in compliance with the Kyoto Protocol to the Climate Change Convention." *Environmental Science and Policy* 6 (6): 475-486. How do policy makers deal with scientific uncertainty?

Haila, Y. 2002. "Scaling environmental issues: problems and paradoxes." *Landscape and Urban Planning*. 61 (2-4): 57-58. Scales of all types are important in environmental planning.

Hannigan, J.A. 1995. "Biodiversity loss: the successful 'career' of a global environmental problem." In *Environmental Sociology: A Social Constructionist Perspective*. Routledge. A interesting examination of the rhetoric of an environmental issue.

Hardner, Jared and Richard Rice. 2002. "Rethinking Green Consumerism." *Scientific American* 286 (5): 88-95. Advocates new market approaches to conservation.

Herrick, Charles N. 2004. "Objectivity versus narrative coherence: science, environmental policy, and the U.S. Data Quality Act" *Environmental Science & Policy* 7 (5): 419-433. A misunderstanding of science has lead to unreasonable expectations about the role that scientific information can play in the development of environmental and public health policies.

Hightower, Jim. 2003. *Thieves in High Places: They've Stolen Our Country—And It's Time to Take It Back*. Viking Books. A populist commentator claims that major corporations are stealing us blind.

Hull, R. B., D. P. Robertson, D. Richert, E. Seekamp, and G. J. Buhyoff. 2002. Assumptions about Ecological Scale and Nature Knowing Best Hiding in Environmental Decisions. *Conservation Ecology* 6: 12.

International Union for the Conservation of Nature. 2000. *Landscape Conservation Law: Present Trends and Perspectives in International and Comparative Law*.

Ivins, Molly and Lou Dubose. 2003. *Bushwhacked : Life in George W. Bush's America*. Random House. A satirical look at Bush policies and their effects.

Jackson, Wes. 1996. *Becoming Native to this Place*. Counterpoint Press. Applies the notion of sense of place to environmental and agricultural policy.

Johnson, Bart and Kristina Hill. 2001. *Ecology and Design: Frameworks for Learning*. Island Press. Addresses the need to incorporate ecological principles in planning, management, and policy.

Kalluri, S. et al. 2003. "The potential of remote sensing data for decision makers at the state, local and tribal level: experiences from NASA's Synergy program." *Environmental Science and Policy* 6 (6): 487-500. GIS is a useful tool for policy makers.

Kennedy, Robert F. Jr. 2004. *Crimes Against Nature : How George W. Bush and His Corporate Pals Are Plundering the Country and Hijacking Our Democracy*. HarperCollins. A scathing indictment of current federal government policies.

Kingdon, John W. 2002. *Agendas, Alternatives, and Public Policies (Longman Classics Edition) (2nd Edition)* Longman. A classic in political science.

Koenig, Kevin. 2004. "Chevron-Texaco On Trial." *World-Watch* 17 (1) 10-19 January/February 2004. In an unprecedented case, an American company has been ordered by U.S. Courts to face a law suit in a foreign court for pollution.

Kraft, Michael E. 2001. *Environmental Policy and Politics (2nd ed.)* Addison-Wesley. A good textbook.

Kresi, H. 1996. "The organizational structure of new social movements in a political context." In *Comparative Perspectives on Social Movement*. D McAdam, et al. (eds). Cambridge Univ. Press. Examines how social movements work.

Kubasek, Nancy and Gary Silverman. 2000. *Environmental Law*. Prentice Hall. A good introductory textbook.

Levitt, James N. 2002. *Conservation in the Internet Age: Threats and Opportunities*. Island Press. How does technology help or hinder conservation?

Lewicki Roy J., Barbara Gray, and Michael Elliott (eds). 2002. *Making Sense of Intractable Environmental Conflicts: Concepts and Cases*. Island Press. Some environmental disputes persist over long periods of time and can't be resolved through consensus-building efforts or by administrative, legal, or political means. This book

focuses on the "frames" parties use to define and enact the dispute—the lenses through which they interpret and understand the conflict and critical conflict dynamics.

Lester, James P. et al. 2000. *Environmental Injustice in the U.S.: Myths and Realities*. Perseus Books. Discusses the social, economic, and political dynamics of environmental decision-making, and the impacts of those decisions on minority communities.

Light, Andrew and Avner de-Shalit (eds). 2003. *Moral and Political Reasoning in Environmental Practice*. MIT Press. Examines the role of moral philosophy in environmental politics and policy.

Liu, J. Van Eck, J. Cong, B. and Tanksley, S.D. 2002. "A new class of regulatory genes underlying the cause of pear-shaped fruit." *Proceedings of the National Academy of Sciences*, doi: 10.1073/pnas.162485999. A single gene change causes shape change in fruit.

Loewenberg, Samuel. 2004. "Old Europe's New Ideas." *Sierra* 89 (1): 40-43, 50. The EU is requiring businesses to go green.

Lovei, M. 1998. *Phasing Out Lead from Gasoline: worldwide experience and Policy Implications*. World Bank Technical Paper 397. Banning leaded gasoline is one of the most effective environmental regulations ever passed.

Luken, R.A., et al. 2004. "Introduction to the special issue on building institutional capacity for cleaner production in developing and transition economies." *Journal of Cleaner Production* 112 (3): 189-194. Avoiding pollution is better than cleaning it up after the fact.

Manfredo, M.J., et al. 2003. "Why are public values toward wildlife changing?" *Human Dimensions of Wildlife* 8: 287-306. How can we influence public behavior?

Margolis, R. M. & Kammen, D. M. 1999. "Underinvestment: The Energy Technology and R&D Policy Challenge." *Science* 285: 690-692. We need funding to study the science of sustainability.

Mastny, Lisa and Hilary French. "Crimes of (a) Global Nature." *World Watch* September/ October 2002, pp 12-23. Forging environmental treaties is difficult. Enforcing them is even tougher.

McAdam, D., et al. 1996. "Introduction: opportunities, mobilizing structures, and framing processes—toward a synthetic, comparative perspective on social movement." In *Comparative Perspectives on Social Movement*. D McAdam, et al. (eds). Cambridge Univ. Press. Examines how social movements work.

Meadowcroft, J. 2002. "Politics and scale: some implications for environmental governance." *Landscape and Urban Planning* 61 (2-4): 169-179. Scales of all sorts are important in planning.

Meltz, Robert, et al. 1999. *The Takings Issue: Constitutional Limits on Land Use Control and Environmental Regulation*. Island Press. Discusses one of the most controversial issues in land-use planning.

Morgan, M. G. 1993. "Risk Analysis and Management," *Scientific American* 269 (1): 32-40. Policymakers use analytical techniques to evaluate statistical probabilities of environmental hazards.

Myers, Norman and Jennifer Kent. 2001. *Perverse Subsidies: How Misused Tax Dollars Harm the Environment and the Economy*. Island Press. We can save the environment and money simultaneously.

Murdock, B.S. and Sexton, K. 1999. "Community-based environmental partnerships". In *Better Environmental Decisions*, K. Sexton, A.A Marcus, K.W. Easter and T.D. Burkhardt (eds.). Island Press.

National Wildlife Federation. 2004. *Conservation Directory 2004: The Guide to Worldwide Environmental Organizations*. Island Press. A comprehensive guide to governmental and non-governmental organizations.

Nicholsen, Shierry Weber. 2002. *The Love of Nature and the End of the World: The Unspoken Dimensions of Environmental Concern*. How can we appreciate the beauty of nature while remaining indifferent to its destruction?

Noss, Reed F. et al, 1997. *The Science of Conservation Planning*. Island Press. A classic in planning for conservation.

O'Brien, Mary. 2004. "Standing up for this world." *Orion* 23 (5): 56-63. The principal of participatory democracy is under attack.

O'Brien Mary. 2000. *Making Better Environmental Decisions: An Alternative to Risk Assessment*. MIT Press. Argues for a major shift in policy making to ask how we can minimize impacts rather than asking how much hazardous activity is safe.

O'Malley, Robin, et al. 2003. "Providing "Better" Data: Not as Simple As It Might Seem." *Environment* 45 (4): 8 -20. Policy makers who ask for "better" data often don't understand how science works.

Oreskes, Naomi. 2004. "Science and public policy: what's proof got to do with it?" *Environmental Science and Policy* 7 (5): 369-383. Argues that a demand for proof in political decision-making misunderstands the nature of science.

- Orr, David. 2004. "Law of the Land." *Orion* 23 (1): 18-25. Describes many countries in which a healthy environment is constitutionally guaranteed.
- Orr, David. 2003. "Walking North on a Southbound Train." *Conservation Biology* 17 (2): 348-351. An interesting reflection on environmental politics.
