

Portfolio Activity 7.1

WHAT IS A CONCEPT?

Materials Needed:

- Something to write with
- Think of the word *dog*. What comes to your mind? What images do you see? Close your eyes and think about the word *dog*. Open your eyes. Write down all the words that describe what you see.
 - Share the list with members of your group. How do your ideas differ?
 - Now do the same thing with either *oxidation*, *photon*, *stomata*, or *xerophytes*. Close your eyes and write down all the words that describe what you see.
 - Share the list with members of your group. How do your ideas differ? Note: Just about any word can be used, but the idea of *dog* seems to work well.
 - Record this in your portfolio.
