SAVE TIME BY ASSIGNING HOMEWORK ONLINE AND HAVING THOSE ASSIGNMENTS AUTOMATICALLY GRADED

McGraw-Hill's Homework Manager is also a useful grading tool. All assignments can be delivered over the Web and are graded automatically, with the results stored in your private grade book. Detailed results let you see at a glance how each student does on an assignment or an individual problem—you can even see how many tries it took to solve it.

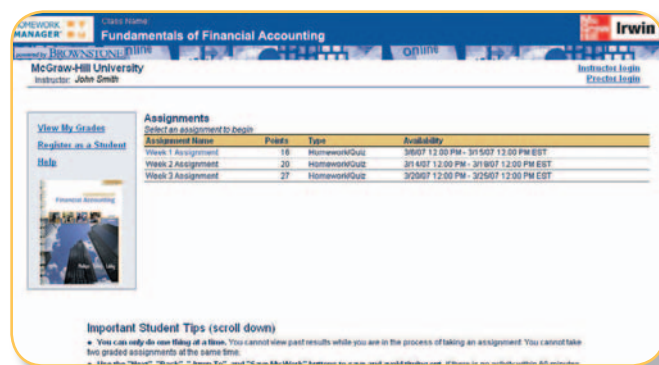

End-of-chapter materials are now online and interactive, with algorithmic generation of limitless numbers of self-graded practice problems. Assignments and tests with unique versions of every problem are also available. Say goodbye to cheating in your classroom; say hello to the power and flexibility you've been waiting for in creating assignments.

Students receive full access to McGraw-Hill's Homework Manager when they purchase McGraw-Hill's Homework Manager Plus, or you can have Homework Manager pass codes shrinkwrapped with the textbook.
