Virtual Labs

A complete set of more than 20 online introductory biology laboratory exercises are available on this text's companion website. Each exercise is self-contained with all instructions and assessment for students. For use either stand-alone or as a supplement to a traditional lab course, this interactive learning tool will help students understand key biological concepts and processes.

McGraw-Hill: Biology Digitized Video Clips

ISBN (13) 978-0-312155-0

ISBN (10) 0-07-312155-X

McGraw-Hill is pleased to offer an outstanding presentation tool to text adopting instructors—digitized biology video clips on DVD! Licensed from some of the highest-quality science video producers in the world, these brief segments range from about five seconds to just under three minutes in length and cover all areas of general biology from cells to ecosystems. Engaging and informative, McGraw-Hill's digitized videos will help capture students' interest while illustrating key biological concepts and processes such as mitosis, how cilia and flagella work, and how some plants have evolved into carnivores.

Student Response System

Wireless technology brings interactivity into the classroom or lecture hall. Instructors and students receive immediate feedback through wireless response pads that are easy to use and engage students. This system can be used by instructors to take attendance, administer quizzes and tests, create a lecture with intermittent questions, manage lectures and student comprehension through the use of the grade book, and integrate interactivity into their PowerPoint presentations.
