Foreword by Paul Ekman  
Preface

## 1 introduction to psychology

**What Is Psychology?**

**Subfields of Psychology**

**Why Should You Study Psychology?**

**On the Origins of Psychology as Practice and Science:  
A Brief History**

Origins of the Practice of Clinical Psychology

Origins of Scientific Psychology

**Ways of Thinking about Mind, Body, and Experience**

The Nature-Nurture Debate

Mind-Body Dualism

The Evolution of Human Behavior

**Connections**

Connecting Nature and Nurture

Connecting Psychologists with Scientific Discovery

**Making Connections in Psychology** *The Psychology of Electronic  
Interaction*

**Chapter Review**

## 2 conducting psychological research

**The Nature of Science**

Common Sense and Logic

The Limits of Observation

What Is Science?

The Scientific Method  
What Science Is Not: Pseudoscience

## **Research Methods in Psychology**

Principles of Research Design  
Descriptive Studies  
Correlational Studies  
Experimental Studies

## **Breaking New Ground** *How an Experimenter Can Affect a Study's Outcome*

Meta-Analysis

## **Commonly Used Measures of Psychological Research**

Self Report Measures  
Behavioral Measures  
Physiological Measures  
Multiple Measures

## **Making Sense of Data with Statistics**

*Psychology in the Real World: Advertising and Lying with Statistics*

## **Research Ethics**

Ethical Research with Humans  
Ethical Research with Animals

## **Making Connections in Psychological Research** *Can Experience Change the Brain?*

## **Chapter Review**

# **3** the **biology** of **behavior**

## **Genes and Behavior**

The Connection between Genes and Behavior  
Polygenic Influence on Behavior  
Genes and Environment  
Epigenesis: How Environment Changes Gene Expression

## **The Nervous System**

Organization of the Nervous System  
The Cells of the Nervous System: Glial Cells and Neurons  
Summary of the Steps in Neural Transmission  
Common Neurotransmitters

## **The Brain**

Evolution of the Human Brain  
Overview of Brain Regions  
Neurogenesis and Brain Plasticity

**Breaking New Ground** *Death of a Dogma: Neurogenesis in the Adult Brain*

*Psychology in the Real World: Using Progesterone to Treat Brain Injury*

## Measuring the Brain

EEG

MRI-fMRI

PET

## Hormones and Behavior: The Endocrine System

**Making Connections in the Biology of Behavior** *What Esref Armagan's Story Reveals about the Brain*

## Chapter Review

# 4 sensing and perceiving our world

## The Long Strange Trip from Sensation to Perception

Basic Sensory Processes

Principles of Perceptions

### Vision

Sensing Visual Stimuli

**Breaking New Ground** *The Specific Functions of Individual Neurons in Vision*

Perceiving Visual Stimuli

### Hearing

The Physics of Sound and the Psychology of Hearing

The Ear

*Psychology in the Real World: Hearing Loss in the Age of the iPod*

Hearing in the Brain

### The Bodily Senses

Touch

Pain

### The Chemical Senses: Smell and Taste

Smell (Olfaction)

Taste

### Synesthesia

**Making Connections in Sensation and Perception** *Cultural Diversity*

## Chapter Review

## 5 the developing human

### The Developing Fetus

- Stages of Prenatal Development
- Brain and Sensory Development
- Environmental Influences on Fetal Development

### The Developing Infant and Child

- Motor Development
- Sensory Development in Infants and Children
- Brain Development

#### ***Psychology in the Real World: Musical Training Changes the Brain***

- Cognitive Development
- Theory of Mind
- Development of Moral Reasoning
- Social-Emotional Development

#### **Breaking New Ground** *How Touch and Comfort Influence Development*

### The Developing Adolescent

- Physical Development
- Cognitive and Brain Development
- Social Development

### The Developing Adult

- Sensation and Perception in Adulthood
- The Brain and Cognition during Adulthood and Old Age
- Social-Emotional Development
- Death and Dying

#### **Making Connections in the Developing Human** *Personality across the Lifespan*

### Chapter Review

## 6 consciousness

### What Is Consciousness?

#### Two Dimensions of Consciousness: Wakefulness and Awareness

- Minimal Consciousness
- Moderate Consciousness
- Full Consciousness

#### Attention: Focusing Consciousness

- Selective Attention
- Sustained Attention

*Psychology in the Real World: Hazards of Cell Phone-Induced Driver Distraction*

#### Training Consciousness: Meditation

- Meditation and Conscious Experience
- Meditation Training and the Brain

#### Sleeping and Dreaming

- Sleeping
- Dreaming

#### Hypnosis

**Breaking New Ground** *The Cognitive Neuroscience of Hypnosis*

#### Altering Consciousness with Drugs

- Depressants
- Stimulants
- Hallucinogens

**Making Connections in Consciousness** *Brain Injury Revisited*

#### Chapter Review

## 7 memory

### Three Types of Memory

- Sensory Memory
- Short-Term Memory
- Long-Term Memory

## **The Biological Basis of Memory**

The Sensory Cortexes

Pathways of Short-Term Memory in the Hippocampus and Prefrontal Cortex

Long-Term Memory Storage in the Cortex

Emotion, Memory, and the Brain

### **Breaking New Ground** *The Remembering Brain*

*Psychology in the Real World: Memory in a Pill*

## **Forgetting and Memory Loss**

The Seven Sins of Memory

Memory Loss Caused by Brain Injury or Disease

### **Making Connections in Memory** *How to Study*

## **Chapter Review**

# **8 learning**

## **Basic Processes of Learning**

Habituation and the Orienting Response

Association

## **Conditioning Models of Learning**

Classical Conditioning

Operant Conditioning

*Psychology in the Real World: Treating Autism with Applied Behavior Analysis*

Challenges to Conditioning Models of Learning

### **Breaking New Ground** *Conditioned Taste Aversion*

## **Social Learning Theory**

## **The Interaction of Nature and Nurture in Learning**

Imprinting

Imitation, Mirror Neurons, and Learning

Synaptic Change during Learning

Experience, Enrichment, and Brain Growth

### **Making Connections in Learning** *Why Do People Smoke?*

## **Chapter Review**

## 9 language and thought

### Language

The Nature of Language  
Evolution of Language in Humans  
Language Development in Individuals  
Theories of Language Acquisition  
Can Non-humans Learn Human Language?  
Language, Culture, and Thought

### Thinking, Reasoning, and Decision Making

How Do We Represent Thoughts in Our Minds?  
How Do We Reason about Evidence?

*Psychology in the Real World: Applying Critical Thinking beyond the Classroom*

### How Do We Make Judgments and Decisions?

**Breaking New Ground** *Non-Rational Judgments*

**Making Connections in Language and Thought** *Learning a Second Language*

### Chapter Review

## 10 intelligence, problem solving, and creativity

### Intelligence

Definition of Intelligence  
Measures and Theories of Intelligence

*Psychology in the Real World: Bringing Multiple Intelligences to School*

**Breaking New Ground** *Changing Tests of Intelligence*

- Extremes of Intelligence
- The Nature and Nurture of Human Intelligence
- Group Differences in Intelligence
- Non-Western Views of Intelligence

**Problem Solving**

- Types of Problems
- Solution Strategies
- Obstacles to Solutions

**Creativity**

- What Is Creativity?
- Stages of Creative Problem Solving
- Genius, Intelligence, and Creativity
- Creativity and the Brain
- Cognitive Processes in Creative Thinking
- The Creative Personality

**Making Connections in Intelligence, Problem Solving, and Creativity** *Whiz Kids in Science*

**Chapter Review**

# 11 motivation and emotion

**Motivation**

- Principles and Models of Motivation
- Basic Needs: Hunger and Sex
- Higher Motivational Needs

**Emotion**

- Defining Emotion
- Emotion as a Process
- Appraisal in Emotion
- Emotional Response

**Breaking New Ground** *The Universality of Facial Expressions of Emotion*

- Emotion and the Brain
- Gender Differences in Emotion

*Psychology in the Real World: Social and Emotional Learning in Schools*

**Making Connections in Motivation and Emotion** *Finding Happiness*

**Chapter Review**

## 12 stress, coping, and health

### What Is Stress?

Stress: Stimulus or Response?

The Physiology of Stress

Models of Adaptation: Homeostasis versus Allostasis

Stress and the Brain

### Coping

Coping Strategies and Emotion Regulation

The Positive Psychology of Coping

***Psychology in the Real World: Long-Term Stress Speeds Aging at the Cellular Level***

### Stress, Coping, and Health

Models of the Relationship between Stress and Illness

Psychoneuroimmunology

Psychological Risk Factors for Heart Disease

**Breaking New Ground** *Conditioned Immunosuppression and the Birth of Psychoneuroimmunology*

### Research on Health Behavior

Health Impairing Behaviors

Health Enhancing Behaviors

**Making Connections in Stress, Coping, and Health** *The Health Psychology of HIV and AIDS*

### Chapter Review

## 13 personality and the uniqueness of the individual

### Nature and Nurture of Personality

Evolution of Personality Traits

Genetics and Personality

Temperament and the Fetal Environment  
Personality and Culture: Universality and Differences

### **How Do Theorists Explain Personality?**

**Breaking New Ground** *Animal Personality*

### **Personality and Its Measurement**

Behavioral Observation  
Interviewing  
Projective Tests  
Questionnaires

**Psychology in the Real World: Screening and Selecting Police Officers**

**Making Connections in Personality** *Can Personalities Change?*

### **Chapter Review**

## **14 social behavior**

### **Group Living and Social Influence**

Behavior among Others  
Conformity  
Minority Social Influence  
Obedience

### **Social Perception**

Attribution  
Detecting Deception  
Schemas  
Stereotypes  
Exclusion and Inclusion  
Prejudice and Discrimination

**Breaking New Ground** *Banaji and Greenwald and the Study of Implicit Bias*

### **Attitudes and Behavior**

The Nature and Nurture of Attitudes  
Attitude Change

## Interpersonal Relations

Nature and Nurture of Aggression

***Psychology in the Real World: Violent Media, Violent World***

Liking, Attraction, and Love

Prosocial Behavior

**Making Connections in Social Behavior** *A Social Psychological Analysis of a Cult*

## Chapter Review

# 15 psychological disorders

## Defining Psychological Disorders

### Anxiety Disorders

Generalized Anxiety Disorder

Panic Disorder and Agoraphobia

Social Disorder (Social Anxiety Disorder)

Post-Traumatic Stress Disorder

Specific Phobias

Obsessive-Compulsive Disorder

***Psychology in the Real World: Internet Abuse***

What Causes Anxiety Disorders? Nature-Nurture Explanations

### Mood Disorders

Depression

Nature-Nurture Explanations of Depression

Bipolar Disorder

Nature-Nurture Explanations of Bipolar Disorder

### Schizophrenic Disorder

Major Symptoms of Schizophrenia

Subtypes of Schizophrenia

Nature-Nurture Explanations of Schizophrenia

### Dissociative Disorders

Dissociative Identity Disorder

Dissociative Amnesia and Fugue

Causes of Dissociative Disorders

### Childhood Disorders

Subtypes of Childhood Disorders

Causes of Childhood Disorders

## Personality Disorders

- Odd-Eccentric Personality Disorders
- Dramatic-Emotional Personality Disorders
- Anxious or Fearful Personality Disorders
- Nature-Nurture Explanations of Personality Disorders

**Breaking New Ground** *Abuse, Disorders, and the Dynamic Brain*

**Making Connections in Psychological Disorders** *Creative Genius and Psychological Disorders*

## Chapter Review

# 16 treatment of psychological disorders

## Biological Treatments for Psychological Disorders

- Drug Therapies
- Psychosurgery
- Electric and Magnetic Therapies

**Breaking New Ground** *Helen Mayberg and the Treatment of Severe Depression*

## Psychological Treatments for Psychological Disorders

- Psychodynamic Treatment
- Humanistic Therapy
- Behavioral Treatments
- Cognitive and Cognitive-Behavioral Treatments
- Group Therapies

**Psychology in the Real World: Preventing Psychological Disorders**

## Effectiveness of Treatments

- Effectiveness of Biological Treatments
- Effectiveness of Psychological Treatments
- Integrative Approaches

**Making Connections in Treatment of Psychological Disorders** *Approaches to the Treatment of Anxiety Disorders*

## Chapter Review

- Glossary
- References
- Credits
- Name Index
- Subject Index
