

Brief Contents

- Chapter 1** Telephone Techniques 2
- Chapter 2** Scheduling Appointments and Maintaining the Physician’s Schedule 20
- Chapter 3** Patient Reception 40
- Chapter 4** Health Insurance Billing Procedures 57
- Chapter 5** Medical Coding 84
- Chapter 6** Patient Billing and Collections 103
- Chapter 7** Accounting for the Medical Office 126
- Chapter 8** Emergency Preparedness and First Aid 162
- Chapter 9** Organization of the Body 203
- Chapter 10** Assisting with Cold and Heat Therapy and Ambulation 224
- Core Competency A** Interviewing the Patient, Taking a History, and Documentation 251
- Core Competency B** Obtaining Vital Signs and Measurements 276
- Learning the Essentials of Medical Language** 302
- Appendix A** The Anatomy of Word Construction: The Essential Elements of the Language of Medicine 312
- Appendix B** The Body as a Whole: The Essentials of the Language of Anatomy 338
- Appendix C** The Appendicular Skeleton, Joints, and Muscles: The Essentials of the Languages of Orthopedics and Rehabilitation 368
- Appendix D** Special Senses of the Eye and Ear: The Essentials of the Languages of Ophthalmology and Otology 402
- Appendix E** Cardiovascular and Circulatory Systems: The Essentials of the Language of Cardiology 448
- Prefixes, Suffixes, and Word Roots in Commonly Used Medical Terms** 485
- Abbreviations and Symbols Commonly Used in Medical Notations** 487
- Credits** 489
- Index** 491

Contents

Chapter 1 Telephone Techniques 2

- Using the Telephone Effectively 4
- Communication Skills 4
- Managing Incoming Calls 4
- Points on Practice/Screening Incoming Calls 7
- Types of Incoming Calls 7
- PROCEDURE 1-1 Performing Telephone Screening 8**
- PROCEDURE 1-2 Handling Emergency Calls 11**
- Using Proper Telephone Etiquette 12
- Taking Messages 13
- PROCEDURE 1-3 Retrieving Messages from an Answering Service 15**
- Telephone Answering Systems 15
- Placing Outgoing Calls 15
- Telephone Triage 16
- Telephone Slamming and Cramming 17
- Pagers and Cell Phones 17
- Facsimile (Fax) Machines 17

Chapter 2 Scheduling Appointments and Maintaining the Physician's Schedule 20

- The Appointment Book 22
- Appointment Scheduling Systems 24
- PROCEDURE 2-1 Creating a Cluster Schedule 28**
- Online Scheduling 28
- Arranging Appointments 28
- Special Scheduling Situations 30
- Points on Practice/Scheduling Emergency Appointments 31
- Scheduling Outside Appointments 32
- PROCEDURE 2-2 Scheduling and Confirming Surgery at a Hospital 33**
- Maintaining the Physician's Schedule 35

Chapter 3 Patient Reception 40

- First Impressions 42
- Career Opportunities/Medical Receptionist 43

- The Importance of Cleanliness 46
- Caution: Handle with Care/Maintaining Cleanliness Standards in the Reception Area 47
- The Physical Components 48
- Keeping Patients Occupied and Informed 49
- Points on Practice/Tailoring Office Magazines to Patient Interests 50
- PROCEDURE 3-1 Creating a Pediatric Playroom 52**
- Patients with Special Needs 52
- PROCEDURE 3-2 Creating a Reception Area Accessible to Patients with Special Needs 54**

Chapter 4 Health Insurance Billing Procedures 57

- Basic Insurance Terminology 59
- Types of Health Plans 60
- Government Plans 61
- PROCEDURE 4-1 Verifying Workers' Compensation Coverage 66**
- The Claims Process: An Overview 67
- Fee Schedules and Charges 70
- Preparing and Transmitting Health-Care Claims 75
- PROCEDURE 4-2 Completing the CMS-1500 Claim Form 77**
- Points on Practice/Data Elements for HIPAA Electronic Claims 81

Chapter 5 Medical Coding 84

- Diagnosis Codes: The ICD-9-CM 86
- PROCEDURE 5-1 Locating an ICD-9-CM Code 91**
- Procedure Codes: The CPT 93
- HCPCS 96
- PROCEDURE 5-2 Locating a HCPCS Code 97**
- PROCEDURE 5-3 Locating a CPT Code 98**
- Avoiding Fraud: Coding Compliance 98
- Career Opportunities/Medical Coder, Physician Practice 100

Chapter 6 Patient Billing and Collections 103

- Basic Accounting 105
- Standard Payment Procedures 105
- Standard Billing Procedures 109
- PROCEDURE 6-1 Processing a Credit Balance 110**
- PROCEDURE 6-2 Processing Refunds to Patients 110**
- Standard Collection Procedures 112
- PROCEDURE 6-3 How to Bill with the Superbill 114**
- PROCEDURE 6-4 Preparing an Age Analysis 117**
- Points on Practice/Choosing a Collection Agency 119
- Credit Arrangements 120
- Common Collection Problems 122
- Career Opportunities/Coding, Billing, and Insurance Specialist 123

Chapter 7 Accounting for the Medical Office 126

- The Business Side of a Medical Practice 128
- Patient Accounting Methods 128
- PROCEDURE 7-1 Posting Entries, Adjustments, and Collection Payments 134**
- Banking for the Medical Office 135
- PROCEDURE 7-2 Posting a Nonsufficient Funds (NSF) Check 136**
- PROCEDURE 7-3 Making a Bank Deposit 139**
- PROCEDURE 7-4 Reconciling a Bank Statement 142**
- Points on Practice/Telephone Banking 143
- PROCEDURE 7-5 Setting Up the Accounts Payable System 144**
- Managing Accounts Payable 144
- Managing Disbursements 144
- Handling Payroll 147
- Points on Practice/Handling Payroll Through Electronic Banking 150
- PROCEDURE 7-6 Generating Payroll 151**
- Calculating and Filing Taxes 153

Chapter 8 Emergency Preparedness and First Aid 162

- Understanding Medical Emergencies 164
- Preparing for Medical Emergencies 165
- PROCEDURE 8-1 Stocking the Crash Cart 166**
- Accidental Injuries 167

PROCEDURE 8-2 Performing an Emergency Assessment 168

PROCEDURE 8-3 Foreign Body Airway Obstruction in a Responsive Adult or Child 172

PROCEDURE 8-4 Foreign Body Airway Obstruction in a Responsive Infant 173

Educating the Patient/Concussion 177

PROCEDURE 8-5 Controlling Bleeding 179

PROCEDURE 8-6 Cleaning Minor Wounds 182

Common Illnesses 184

Less Common Illnesses 185

PROCEDURE 8-7 Caring for a Patient Who Is Vomiting 186

Career Opportunities/CPR Instructor 188

PROCEDURE 8-8 Performing Cardiopulmonary Resuscitation (CPR) 190

PROCEDURE 8-9 Assisting with Emergency Childbirth 193

Common Psychosocial Emergencies 195

The Patient Under Stress 197

Educating the Patient 197

Disasters 197

Bioterrorism 197

PROCEDURE 8-10 Performing Triage in a Disaster 199

Chapter 9 Organization of the Body 203

The Study of the Body 205

Organization of the Body 206

Body Organs and Systems 206

Understanding Medical Terminology 207

Anatomical Terminology 209

Body Cavities and Abdominal Regions 211

Chemistry of Life 211

Cell Characteristics 213

Movement Through Cell Membranes 215

Cell Division 215

Genetic Techniques 217

Heredity 217

Major Tissue Types 218

Pathophysiology/Common Genetic Disorders 220

Chapter 10 Assisting with Cold and Heat Therapy and Ambulation 224

General Principles of Physical Therapy 226

Educating the Patient/Specialized Therapies and Their Benefits 227

Cryotherapy and Thermotherapy 230

Reflecting On . . . Age Consideration—Geriatrics/ Elderly Patients' Sensitivity to Cold and Heat	231	Caution: Handle with Care/Tympanic Thermometers: What You Need to Know	286
PROCEDURE 10-1 Administering Cryotherapy	233	PROCEDURE B-2 Measuring and Recording Pulse and Respirations	288
PROCEDURE 10-2 Administering Thermotherapy	234	PROCEDURE B-3 Taking the Blood Pressure of Adults and Older Children	291
Hydrotherapy	236	Body Measurements	293
Exercise Therapy	236	PROCEDURE B-4 Measuring Adults and Children	296
Career Opportunities/Physical Therapist Assistant	237	PROCEDURE B-5 Measuring Infants	297
Educating the Patient/The Injured Athlete	239		
Career Opportunities/Occupational Therapist Assistant	241		
Traction	241		
Mobility Aids	242		
PROCEDURE 10-3 Teaching a Patient How to Use a Cane	243		
PROCEDURE 10-4 Teaching a Patient How to Use a Walker	245		
PROCEDURE 10-5 Teaching a Patient How to Use Crutches	246		
Referral to a Physical Therapist	249		
Core Competency A Interviewing the Patient, Taking a History, and Documentation	251		
The Patient Interview and History	253		
Your Role as an Observer	256		
PROCEDURE A-1 Using Critical Thinking Skills During an Interview	258		
Reflecting On . . . Communication Issues/ Communicating with Professionalism	259		
Caution: Handle with Care/Signs of Depression, Substance Abuse, and Addiction in Adolescents	260		
Documenting Patient Information	262		
Reflecting On . . . Age Consideration—Pediatrics/ The Interview and Abuse	262		
Reflecting On . . . Age Consideration—Geriatrics/ The Interview and Abuse	262		
Recording the Patient's Medical History	266		
PROCEDURE A-2 Using a Progress Note	271		
PROCEDURE A-3 Obtaining a Medical History	273		
Core Competency B Obtaining Vital Signs and Measurements	276		
Vital Signs	278		
Points on Practice/Math for Measurements	280		
PROCEDURE B-1 Measuring and Recording Temperature	283		
Reflecting On . . . Age Consideration—Pediatrics/ Special Considerations	285		
		Learning the Essentials of Medical Language	302
		"Why Do I Need to Learn Medical Terminology?"	304
		"What Is Lifelong, Active Learning?"	306
		Active Learning	307
		"How Can I Help Myself Learn Better?"	308
		"Why Should I Choose This Book?"	310
		APPENDIX A The Anatomy of Word Construction: <i>The Essential Elements of the Language of Medicine</i>	312
		LESSON AA.1 The Construction of Medical Words	314
		Roots and Combining Vowels	314
		Suffixes	316
		Prefixes	318
		LESSON AA.2 Word Analysis and Deconstruction	320
		Word Deconstruction	320
		Pronunciation	322
		Plurals	322
		Precision in Communication	324
		APPENDIX A Review	326
		APPENDIX B The Body as a Whole: <i>The Essentials of the Language of Anatomy</i>	338
		LESSON AB.1 Anatomical Positions, Planes, and Directions	340
		Fundamental Anatomical Position	340
		Anatomical Directional Terms	340
		Anatomical Planes	340
		Body Cavities	342
		Abdominal Quadrants	342
		LESSON AB.2 Organization of the Body	344
		Composition of the Body	344
		The Cell	344
		Structure and Function of Cells	346

LESSON AB.3 Tissues, Organs, and Organ Systems 350

Tissues 350

Connective Tissues 352

Organs and Organ Systems 354

APPENDIX B Review 356

APPENDIX C The Appendicular Skeleton, Joints, and Muscles: *The Essentials of the Languages of Orthopedics and Rehabilitation* 368

LESSON AC.1 Shoulder Girdle, Arm, and Hand 370

Shoulder Girdle 370

Upper Arm and Elbow Joint 372

Wrist and Hand 374

LESSON AC.2 Pelvic Girdle, Leg, and Foot 376

Bones, Joints, and Muscles of the Hip and Thigh 378

Bones, Joints, and Muscles of the Knee and Thigh 380

The Knee Joint 382

Bones, Muscles, and Joints of the Lower Leg, Ankle, and Foot 384

Joint Movement 386

APPENDIX C Review 388

APPENDIX D Special Senses of the Eye and Ear: *The Essentials of the Languages of Ophthalmology and Otology* 402

The Eye and Seeing 403

LESSON AD.1 Accessory Structures of the Eye 404

Disorders of the Accessory Glands 406

Extrinsic Muscles of the Eye 408

LESSON AD.2 The Eyeball and Seeing 410

The Eyeball (Globe) 410

Visual Pathway 414

LESSON AD.3 Disorders of the Eye and Ophthalmic Procedures 416

Disorders of the Anterior Eyeball 416

Disorders of the Retina 418

Ophthalmic Procedures 420

The Ear and Hearing 423

LESSON AD.4 The Ear and Hearing 424

External Ear 426

Middle Ear 428

Disorders of the Middle Ear 430

Inner Ear for Hearing 432

Inner Ear for Equilibrium and Balance 434

APPENDIX D Review 436

APPENDIX E Cardiovascular and Circulatory Systems: *The Essentials of the Language of Cardiology* 448

LESSON AE.1 The Heart 450

Location of the Heart 450

Functions and Structure of the Heart 452

Blood Flow through the Heart 454

The Heartbeat 456

LESSON AE.2 Disorders of the Heart 458

Disorders of the Heart 458

Cardiologic Investigations and Procedures 466

LESSON AE.3 Circulatory Systems 468

Circulatory System 470

Circulatory Disorders 472

APPENDIX E Review 474

Prefixes, Suffixes, and Word Roots in Commonly Used Medical Terms 485

Abbreviations and Symbols Commonly Used in Medical Notations 487

Credits 489

Index 491
