

1 CRITICAL THINKING: WHY IT'S IMPORTANT 1

WHAT IS CRITICAL THINKING? 4

- Critical Thinking in Everyday Life 4
- Cognitive Development in College Students 5

CHARACTERISTICS OF A GOOD CRITICAL THINKER 7

- Analytical Skills 7
- Effective Communication 7
- Research and Inquiry Skills 7
- Flexibility and Tolerance for Ambiguity 8
- Open-Minded Skepticism 8
- Creative Problem Solving 9
- Attentive, Mindful, and Curious 10
- Collaborative Learning 11

CRITICAL THINKING AND SELF DEVELOPMENT 13

- Living the Self-Examined Life 13
- Developing a Rational Life Plan 13
- Facing Challenges 16
- The Importance of Self-Esteem 16
- Critical Thinking in a Democracy 16

BARRIERS TO CRITICAL THINKING 20

- The Three-Tier Model of Thinking 20
- Resistance 21
- Types of Resistance 21
- Narrow-Mindedness 23
- Rationalization and Doublethink 26
- Cognitive and Social Dissonance 27
- Stress as a Barrier 27

CRITICAL THINKING ISSUE: *Perspectives on Affirmative Action in College Admissions* 30

2 REASON AND EMOTION 35

WHAT IS REASON? 37

- Traditional Views of Reason 37
- Sex, Race, Age, and Reason 38
- Dreams and Problem Solving 39

THE ROLE OF EMOTION IN CRITICAL THINKING 42

- Cultural Attitudes toward Emotion 42
- Emotional Intelligence and the Positive Effects of Emotion 43
- Negative Effects of Emotion 44
- Integrating Reason and Emotion 45

ARTIFICIAL INTELLIGENCE, REASON, AND EMOTION 46

- The Field of Artificial Intelligence 47
- Can Computers Think? 49
- Can Computers Feel Emotions? 49

FAITH AND REASON 50

- Fideism: Faith Transcends Reason 51
- Rationalism: Religious Beliefs and Reason 51
- Critical Rationalism: Faith and Reason Are Compatible 52
- Religion, Spirituality, and Real-Life Decisions 53

CRITICAL THINKING ISSUE: *Perspectives on Reason and Proofs for the Existence of God* 56

3 LANGUAGE AND COMMUNICATION 61

WHAT IS LANGUAGE? 63

- Functions of Language 63
- Nonverbal Language 65

DEFINITIONS 69

- Denotative and Connotative Meanings 69
- Stipulative Definitions 69
- Lexical Definitions 70
- Precising Definitions 70
- Persuasive Definitions 72

EVALUATING DEFINITIONS 74

- Five Criteria 74
- Verbal Disputes Based on Ambiguous Definitions 74

COMMUNICATION STYLES 76

- Individual Styles of Communication 76
- Communication Style, Sex, and Race 78
- Cultural Differences in Communication Styles 81

THE USE OF LANGUAGE TO MANIPULATE 82

- Emotive Language 82
- Rhetorical Devices 83
- Deception and Lying 86

CRITICAL THINKING ISSUE: *Perspectives on Free-Speech Zones on College Campuses* 90

4 KNOWLEDGE: EVIDENCE AND ERRORS IN THINKING 90

HUMAN KNOWLEDGE AND ITS LIMITATIONS 97

- Rationalism and Empiricism 97
- Structure of the Mind 97

EVALUATING EVIDENCE 98

- Direct Experience and False Memories 98
- The Unreliability of Hearsay and Anecdotal Evidence 100
- Experts and Credibility 101
- Evaluating Evidence for a Claim 102
- Research Resources 104

COGNITIVE AND PERCEPTUAL ERRORS IN THINKING 107

- Perceptual Errors 107
- Misperception of Random Data 109
- Memorable-Events Error 110
- Probability Errors 112
- Self-Serving Biases 113
- Self-Fulfilling Prophecy 117

SOCIAL ERRORS AND BIASES 118

- “One of Us/One of Them” Error 118
- Societal Expectations 120
- Group Pressure and Conformity 120
- Diffusion of Responsibility 122

CRITICAL THINKING ISSUE: *Perspectives on the Existence of Unidentified Flying Objects* 124

5 INFORMAL FALLACIES 131

WHAT IS A FALLACY? 133

FALLACIES OF AMBIGUITY 133

- Equivocation 133
- Amphiboly 134
- Fallacy of Accent 135
- Fallacy of Division 135
- Fallacy of Composition 136

FALLACIES OF RELEVANCE 137

- Personal Attack (Ad Hominem) Fallacy 137
- Appeal to Force (Scare Tactics) 139
- Appeal to Pity 141
- Popular Appeal 142
- Appeal to Ignorance 144
- Hasty Generalization 144
- Straw Man 146
- Red Herring 146

FALLACIES INVOLVING UNWARRANTED ASSUMPTIONS 149

- Begging the Question 149
- Inappropriate Appeal to Authority 150
- Loaded Question 150
- False Dilemma 150
- Questionable Cause 151
- Slippery Slope 152
- Naturalistic Fallacy 154

STRATEGIES FOR AVOIDING FALLACIES 157

CRITICAL THINKING ISSUE: *Perspectives on Going to War in Iraq* 160

6 RECOGNIZING, ANALYZING AND CONSTRUCTING ARGUMENTS 165

WHAT IS AN ISSUE? 167

- Identifying an Issue 167
- Asking the Right Questions 167

RECOGNIZING AN ARGUMENT 170

- Distinguishing Between Argumentation and Rhetoric 170
- Types of Arguments 170
- Propositions 170
- Premises and Conclusions 172
- Nonarguments: Explanations and Conditional Statements 172

BREAKING DOWN AND DIAGRAMMING ARGUMENTS 174

- Breaking Down an Argument into Propositions 174
- Identifying the Premise(s) and Conclusion in Complex Arguments 176
- Diagramming an Argument 177

EVALUATING ARGUMENTS 182

- Clarity: Is the Argument Clear and Unambiguous? 182
- Credibility: Are the Premises Supported by Evidence? 182
- Relevance: Are the Premises Relevant to the Conclusion? 182
- Completeness: Are There Any Unstated Premises and Conclusions? 183
- Soundness: Are the Premises True, and Do They Support the Conclusion? 184

CONSTRUCTING AN ARGUMENT 185

- Steps for Constructing an Argument 185
- Using Arguments in Making Real-Life Decisions 190

CRITICAL THINKING ISSUE: *Perspectives on Same-Sex Marriage* 194

7 INDUCTIVE ARGUMENTS 200

WHAT IS AN INDUCTIVE ARGUMENT? 203

- The Use of Inductive Reasoning in Everyday Life 203

GENERALIZATION 204

- Using Polls, Surveys, and Sampling to Make Generalizations 204
- Applying Generalizations to Particular Cases 209
- Evaluating Inductive Arguments Using Generalization 210

ANALOGIES 214

- Uses of Analogies 214
- Arguments Based on Analogies 214
- Analogies as Tools for Refuting Arguments 215
- Evaluating Inductive Arguments Based on Analogies 216

CAUSAL ARGUMENTS 220

- Causal Relationships 220
- Correlations 221
- Establishing Causal Relationships 222
- Causal Arguments in Public Policy and Everyday Decision Making 222
- Evaluating Causal Arguments 224

CRITICAL THINKING ISSUE: *Perspectives on Legalizing Marijuana* 228

8 DEDUCTIVE ARGUMENTS 237

WHAT IS A DEDUCTIVE ARGUMENT? 239

Deductive Reasoning and Syllogisms 239

Valid and Invalid Arguments 239

Sound and Unsound Arguments 240

TYPES OF DEDUCTIVE ARGUMENTS 241

Arguments by Elimination 241

Arguments Based on Mathematics 243

Arguments from Definition 244

HYPOTHETICAL SYLLOGISMS 247

Modus Ponens 247

Modus Tollens 248

Chain Arguments 248

Evaluating Hypothetical Syllogisms for Validity 250

CATEGORICAL SYLLOGISMS 252

Standard-Form Categorical Syllogisms 252

Quantity and Quality 253

Diagramming Propositions with Venn Diagrams 253

Using Venn Diagrams to Evaluate Categorical Syllogisms 254

TRANSLATING ORDINARY ARGUMENTS INTO STANDARD FORM 257

Rewriting Everyday Propositions in Standard Form 257

Identifying the Three Terms in the Argument 258

Putting the Argument into Standard Form 259

CRITICAL THINKING ISSUE: *Perspectives on the Death Penalty* 261

9 ETHICS & MORAL DECISION MAKING 271

WHAT IS MORAL REASONING? 273

Moral Values and Happiness 273

Conscience and Moral Sentiments 274

THE DEVELOPMENT OF MORAL REASONING 278

Lawrence Kohlberg's Stage Theory of Moral Development 278

Carol Gilligan on Moral Reasoning in Women 280

The Development of Moral Reasoning in College Students 282

MORAL THEORIES: MORALITY IS RELATIVE 283

Ethical Subjectivism 283

Cultural Relativism 283

MORAL THEORIES: MORALITY IS UNIVERSAL 286

Utilitarianism (Consequence-Based Ethics) 287

Deontology (Duty-Based Ethics) 288

Rights-Based Ethics 291

Virtue Ethics 292

MORAL ARGUMENTS 294

Recognizing Moral Arguments 294

Constructing Moral Arguments 294

Evaluating Moral Arguments 295

Resolving Moral Dilemmas 296

CRITICAL THINKING ISSUE:

Perspectives on Abortion 300

10 MARKETING AND ADVERTISING 308

MARKETING IN A CONSUMER CULTURE 310

- Marketing Research 311
- Avoiding Confirmation Bias and Other Errors in Thinking 312

MARKETING STRATEGIES 314

- The SWOT Model 314
- Consumer Awareness of Marketing Strategies 317

ADVERTISING AND THE MEDIA 319

- The Role of Advertising in the Media 320
- Product Placement 320
- Television Advertising and Children 322

EVALUATING ADVERTISEMENTS 323

- Common Fallacies in Advertisements 323
- Rhetorical Devices and Misleading Language 324
- Faulty and Weak Arguments 326
- A Critique of Advertising 328

CRITICAL THINKING ISSUE: *Perspectives on Advertising and Children* 332

11 MASS MEDIA 339

MASS MEDIA IN THE UNITED STATES 341

- The Rise of Mass Media 341
- The Media Today 341

THE NEWS MEDIA 343

- Credibility of News Coverage 343
- Sensationalism and the News as Entertainment 344
- Bias in the News 344
- Depth of News Analysis 346
- Confirmation Bias 348

SCIENCE REPORTING 349

- Misrepresentation of Scientific Findings 349
- Government Influence and Bias 350
- Evaluating Scientific Reports 351

THE INTERNET 352

- Impact of the Internet on Daily Life 352
- Social Networking 353
- The Internet as "The Great Equalizer" 354
- Misuse of the Internet: Pornography and Plagiarism 356

MEDIA LITERACY: A CRITICAL-THINKING APPROACH 357

- Experiencing the Media 357
- Interpreting Media Messages 358

CRITICAL THINKING ISSUE: *Internet Plagiarism Among College Students* 360

12 SCIENCE 367

- WHAT IS SCIENCE? 369**
- The Scientific Revolution 369
 - Assumptions Underlying Science 369
 - Limitations of Science 370
 - Science and Religion 371

- THE SCIENTIFIC METHOD 373**
1. Identify the Problem 373
 2. Develop an Initial Hypothesis 374
 3. Gather Additional Information and Refine the Hypothesis 375
 4. Test the Hypothesis 377
 5. Evaluate the Hypothesis on the Basis of Testing or Experimental Results 377

- EVALUATING SCIENTIFIC HYPOTHESES 378**
- Relevance to the Problem Under Study 379
 - Consistency with Well-Established Theories 379
 - Simplicity 379
 - Testability and Falsifiability 379
 - Predictive Power 381

Distinguishing Between Scientific and Pseudoscientific Hypotheses 381

- RESEARCH METHODOLOGY AND SCIENTIFIC EXPERIMENTS 384**
- Research Methodology and Design 384
 - Field Experiments 385
 - Controlled Experiments 385
 - Single-Group (Pretest–Posttest) Experiments 386
 - Evaluating an Experimental Design 388
 - Interpreting Experimental Results 389
 - Ethical Concerns in Scientific Experimentation 389

- THOMAS KUHN AND SCIENTIFIC PARADIGMS 393**
- Normal Science and Paradigms 393
 - Scientific Revolutions and Paradigm Shifts 393

CRITICAL THINKING ISSUE: *Evolution versus Intelligent Design* 395

13 LAW AND POLITICS 403

THE SOCIAL CONTRACT THEORY OF GOVERNMENT 405

- The State of Nature 405
- Social Contract Theory 405
- International Law 406

THE DEVELOPMENT OF DEMOCRACY IN THE UNITED STATES 407

- Representative Democracy: A Safeguard Against the “Tyranny of the Majority” 407
- Liberal Democracy: Protection of Individual Rights 408
- Political Campaigns and Elections 408
- Voting: A Right or a Duty? 409

THE EXECUTIVE BRANCH OF GOVERNMENT 411

- The Role of the Executive Branch 411
- Executive Orders and National Security 411
- Checks on Executive Power 413

THE LEGISLATIVE BRANCH OF GOVERNMENT 415

- The Role of the Legislative Branch 415
- Citizens and Legislation 416
- Unjust Laws and Civil Disobedience 418

THE JUDICIAL BRANCH OF GOVERNMENT 422

- The Role of the Judicial Branch 422
- Rules of Evidence 422
- Legal Reasoning and the Doctrine of Legal Precedent 423
- Jury Duty 425

CRITICAL THINKING ISSUE: *Perspectives on Torture and the War on Terrorism* 428
