UNIT (6) Databases　　　　　　　　Unit Closer

Build Your Portfolio (page 303)

Design a Custom Computer

Directions: After you have finished your project, determine whether you have completed the criteria listed in the left column. Fill in the checklist in the shaded columns below and then turn the rubric in to your teacher along with your project.

	Student Checklist		Teacher Evaluation
Criteria	**Completed**	**Not Completed**	**Comments**
Review the Tech Talk about e-commerce (p. 255-265)			
Research businesses that rent movies and find information that will relate to your new online business			
Use the information you gathered to design the tables for your database			
List the names of each table on a separate piece of paper, and list the field name, field type and sort and filter information for each table			
Use Access to create a database			
Create at least two tables for your database and a data entry form for each table			
Enter at least ten movie records and ten customer records			
Create filters and sorts to locate movies based on different categories and create database reports			
Use correct formatting, spelling, punctuation and grammar			
Edit to make your report clear and free of errors
