

## ANTILOCK BRAKES CHALLENGE 7

**NATEF Standard(s) for Brakes:**

**G3** Diagnose antilock brake system (ABS) electronic control(s) and components using self-diagnosis and/or recommended test equipment; determine necessary action.

**Directions:** Read the challenge below and then list (1) possible causes, (2) Safety First Practices, and (3) Tools and Equipment Required if a technician were to perform a Quick ✓ Check.

<b>CUSTOMER'S CONCERN</b>
A few days ago I was parking my car and hit the curb pretty hard with the right front wheel. Since then the brakes don't seem to be working right. Now when I apply the brakes, it pulls very hard to the left. <b>Customer Vehicle:</b> Ford Mustang
