

## Reading Tip

The main idea is often the first sentence in a paragraph but not always.

### Target Your Reading

Use this to focus on the main ideas as you read the chapter.

- 1 Before you read** the chapter, respond to the statements below on your worksheet or on a numbered sheet of paper.
  - Write an **A** if you **agree** with the statement.
  - Write a **D** if you **disagree** with the statement.
- 2 After you read** the chapter, look back to this page to see if you've changed your mind about any of the statements.
  - If any of your answers changed, explain why.
  - Change any false statements into true statements.
  - Use your revised statements as a study guide.

Before You Read A or D	Statement	After You Read A or D
	<b>1</b> Estimation is a guess made without any additional information.	
	<b>2</b> A single measurement can't be precise.	
	<b>3</b> A group of measurements that is precise must also be accurate.	
	<b>4</b> Units of volume are SI base units.	
	<b>5</b> The volume of a rock can be measured by multiplying length $\times$ width $\times$ height.	
	<b>6</b> Mass and weight are the same thing.	
	<b>7</b> A table and a graph can represent the same data in a different format.	
	<b>8</b> A circle graph represents parts of a whole.	
	<b>9</b> The x- and y-axes on a graph must always start at zero.
