Preface vi

INTRODUCTION

The Study of Health and Aging 1

- How Old Is Old? 2
- The Study of Aging 3

CHAPTER 1

Our Nation's Elders: The Facts 5

- Ageism 6
- Who Are Our Nation's Elders? 7
- Racial and Ethnic Diversity 14
- Working with Minority Elders: Obstacles and Opportunities 23
- Summary 25
- Activities 25
- Bibliography 26

CHAPTER 2

Biologic Aging Theories and Longevity 28

- Living Long and Well 29
- Factors Influencing Longevity 30
- Overview of Cell Reproduction and Repair 37
- Biologic Theories of Aging 39
- Attempts to Extend the Length of Life 44
- Summary 47
- Activities 48
- Bibliography 49

CHAPTER 3

Changes in the Body with Age 51

- Studying the Physiological Process of Aging 52
- Defining Age Changes 54
- The Integumentary System 55
- The Musculoskeletal System 60
- The Cardiovascular System 63
- The Lymphatic and Immune Systems 65
- The Respiratory System 67
- The Digestive System 68
- The Urinary System 70
- The Nervous System 71
- The Sensory System 73
- The Endocrine System 82
- The Genital System 85
- Summary 87
- Activities 87
- Bibliography 88

CHAPTER 4

Chronic Illnesses: The Major Killers 91

- The Nature of Chronic Illness 92
- Psychosocial Aspects of Chronic Illness 96
- The Five Major Killers 98
- Summary 125
- Activities 126
- Bibliography 126

CHAPTER 5

Other Chronic Diseases and Conditions 128

- Skeletal Disorders 129
- Endocrine Disorders 135
- Digestive Disorders 136
- Circulatory Conditions 142
- Urogenital Disorders 143
- Skin Conditions 148
- Neurological Disorders 150
- Vision Disorders 152
- Summary 155
- Activities 155
- Bibliography 155

CHAPTER 6

Acute Illnesses and Accidents 157

- Common Acute Illnesses Among
Elders 158
- Accidents 175
- Summary 188
- Activities 188
- Bibliography 189

CHAPTER 7

Mental Health and Mental Disorders 192

- Mental Health 193
- Psychological Changes with Age 194
- Transitions in Later Life 197
- Mental Disorders 202
- Psychological Treatments 222
- Mental Health Services 224
- Advocacy Efforts 231
- Summary 233
- Activities 234
- Bibliography 235

CHAPTER 8

Medication Use 238

- Medication Overview 239
- Elder Medication Use and Cost 242
- Pharmacokinetics 248
- Over-the-Counter (OTC) Drugs 250

- Prescription Drugs 251
- Generic Versus Brand Name Drugs 252
- Polypharmacy 253
- Drug Interactions 253
- Adverse Drug Effects 254
- Medication Errors 257
- Promoting Effective Drug Use 259
- Alternatives to Drugs 266
- Summary 270
- Activities 270
- Bibliography 271

CHAPTER 9

Physical Activity 274

- Components of Physical Fitness 275
- Benefits of Physical Activity 277
- Hazards of Inactivity 283
- Exercise to Prevent and Treat Disease 285
- Exercise: A Prescription for Health 292
- Risks and Complications of Exercise 296
- Elders' Activity Level 298
- Exercise Promotion 299
- Summary 305
- Activities 305
- Bibliography 306

CHAPTER 10

Nutrition 311

- Essential Dietary Components 312
- Dietary Guidelines for Americans 325
- The Study of Diet and Nutrition 327
- Nutritional Status of Elders 330
- Common Nutritional Problems 330
- Dietary Considerations for Selected Diseases
and Conditions 336
- Effect of Drug Use on Nutritional Status 341
- Vitamin and Mineral Supplements 342
- Factors Affecting Nutritional Status 345
- Nutrition Assessment 347
- Nutrition Education and Counseling 348
- Nutrition Programs 349
- Summary 350
- Activities 350
- Bibliography 351

 CHAPTER *II*

Sexuality 355

- Misconceptions of Elder Sexuality 356
- Sexual Activity in Later Life 357
- Changes in Sexual Response with Age 359
- Sexuality in Special Elder Populations 360
- The Effect of Chronic Illness on Sexuality 366
- Other Factors Influencing Sexual Function 371
- Sexual Dysfunction 374
- Sex Education 380
- Summary 381
- Activities 381
- Bibliography 382

 CHAPTER *I2*

Prevention and Health Promotion 386

- Prevention: An Overview 387
- The Healthy People Initiative 388
- Primary Prevention: Vaccines and Pills 389
- Secondary Prevention: Screening 391
- Tertiary Prevention 401
- Preventive Services: Utilization and Expenditures 402
- Health Promotion 403
- Summary 414
- Activities 415
- Bibliography 415

 CHAPTER *I3*

Medical Care 417

- Elders' Sources of Income 418
- Elders' Use of Medical Services 421
- Financing Medical Care 421
- Medical Care: Problems and Prospects 431

- Future Directions in Medical Care 444
- Complementary and Alternative Medicine 448
- Summary 449
- Activities 450
- Bibliography 451

 CHAPTER *I4*

Long-Term Care 454

- The Need for Long-Term Care 455
- Funding Sources for Long-Term Care 457
- Home Care 461
- Nursing Homes 478
- Planning for Long-Term Care 497
- Summary 499
- Activities 499
- Bibliography 500

 CHAPTER *I5*

Dying, Death, and Grief 502

- Death Defined 503
- Who Should Decide? 503
- Advance Directives 506
- Euthanasia and Assisted Suicide 511
- Choosing to Die 513
- Attitudes Toward Dying and Death 515
- Options on Where to Die 515
- The Dying Trajectory 518
- Caring for the Dying 525
- Bereavement and Grief 530
- Summary 533
- Activities 533
- Bibliography 534

Index 537
