Preface	xvii		
PART 1: An Introduction to Economics and the Economy	1		
CHAPTER 1: Limits, Alternatives, and Choices	2		
1.1 Ten Key Concepts to Retain for a Lifetime	3		
The Individual	3		
Interaction Among Individuals	3		
The Economy as a Whole and the Standard of Living	3		
1.2 The Economic Way of Thinking	4		
Scarcity and Choice	4		
Purposeful Behaviour	4		
<i>Consider This—Free for All?</i>	5		
Marginal Analysis: Benefits and Costs	5		
<i>Consider This—Fast Food Lines</i>	6		
1.3 Theories, Principles, and Models	6		
1.4 Macroeconomics and Microeconomics	7		
Macroeconomics	7		
Microeconomics	8		
Positive and Normative Economics	8		
1.5 The Individual's Economic Problem	9		
Limited Income	9		
Unlimited Wants	9		
A Budget Line	10		
1.6 Society's Economic Problem	12		
Scarce Resources	12		
Resource Categories	12		
1.7 The Production Possibilities Model	13		
The Production Possibilities Table	13		
The Production Possibilities Curve	14		
The Law of Increasing Opportunity Cost	14		
Optimal Allocation	16		
1.8 Unemployment, Growth, and the Future	17		
A Growing Economy	17		
<i>Consider This—Women, the Workforce, and Production Possibilities</i>	19		
Present Choices and Future Possibilities	20		
A Qualification: International Trade	21		
<i>The Last Word—Pitfalls to Sound Objective Thinking</i>	21		
Chapter Summary	22		
Terms and Concepts	23		
Study Questions	24		
Internet Application Questions	25		
Appendix to Chapter 1	26		
A1.1 Graphs and Their Meaning	26		
Construction of a Graph	26		
Direct and Inverse Relationships	27		
Dependent and Independent Variables	27		
Other Things Equal	28		
Slope of a Line	29		
Vertical Intercept	30		
Equation of a Linear Relationship	30		
Slope of a Nonlinear Curve	31		
Appendix Summary	31		
Appendix Terms and Concepts	32		
Appendix Study Questions	32		
CHAPTER 2: The Market System and the Circular Flow	34		
2.1 Economic Systems	35		
The Command System	35		
The Market System	35		
2.2 Characteristics of the Market System	36		
Private Property	36		
Freedom of Enterprise and Choice	36		
Self-Interest	37		

Competition	37	3.2 Supply	64
Markets and Prices	38	Law of Supply	64
Technology and Capital Goods	38	The Supply Curve	64
Specialization	39	Market Supply	64
Use of Money	39	Determinants of Supply	65
Active, but Limited, Government	40	Changes in Supply	65
2.3 Five Fundamental Questions	41	3.3 Market Equilibrium	68
What Will Be Produced?	41	Equilibrium Price and Quantity	68
<i>Consider This—McHits and McMisses</i>	42	<i>Consider This—Ticket Scalping: A Bum Rap!</i>	70
How Will the Goods and Services Be Produced?	42	Rationing Function of Prices	71
Who Will Get the Output?	43	Efficient Allocation	71
How Will the System Accommodate Change?	43	Changes in Supply, Demand, and Equilibrium	71
How Will the System Promote Progress?	44	<i>Consider This—Salsa and Coffee Beans</i>	73
The “Invisible Hand”	45	3.4 Application: Government-Set Prices	74
2.4 The Demise of the Command Systems	45	Price Ceilings on Gasoline	74
The Coordination Problem	45	Price Floors on Wheat	76
The Incentive Problem	46	<i>The Last Word—A Legal Market for</i>	
2.5 Market Failure	46	<i>Human Organs?</i>	78
Externalities	47	Chapter Summary	79
Public Goods and Services	48	Terms and Concepts	79
Limitations of the Market System	49	Study Questions	80
<i>Consider This—Market Failure and the Need</i>		Internet Application Questions	81
<i>for Government</i>	49	Math Appendix to Chapter 3	82
2.6 The Circular Flow Model	50	A3.1 The Mathematics of Market Equilibrium	82
Factor Market	50	The Demand Curve	82
Product Market	50	The Supply Curve	83
<i>The Last Word—Shuffling the Deck</i>	52	The Market Equilibrium	83
Chapter Summary	53	Example	84
Terms and Concepts	54	PART 2:	
Study Questions	54	Macroeconomic Measurements	
Internet Application Questions	55	and Basic Concepts	85
CHAPTER 3:		CHAPTER 4:	
Demand, Supply, and Market Equilibrium	56	Measuring the Economy’s Output	86
3.1 Demand	57	4.1 Measuring the Economy’s	
Law of Demand	57	Performance: GDP	87
The Demand Curve	59	Gross Domestic Product	87
Market Demand	59	A Monetary Measure	87
Change in Demand	59	Avoiding Multiple Counting	87
Changes in Quantity Demanded	63		

GDP Excludes Nonproduction Transactions	88	Cyclical Impact: Durables and Nondurables	112
Two Ways of Calculating GDP: Spending and Income	89	5.3 Unemployment	113
The Expenditures Approach	89	Measurement of Unemployment	113
<i>Consider This—Stock Answers about Flows</i>	92	Types of Unemployment	114
The Income Approach	92	Definition of Full Employment	115
4.2 Other National Accounts	95	<i>Consider This—Why Is the Natural Rate of Unemployment in Europe so High?</i>	116
Gross National Product (GNP)	95	Economic Cost of Unemployment	117
Net Domestic Product (NDP)	95	Non-Economic Costs	119
Net National Income at Basic Prices (NNI)	95	Regional Variations	119
Personal Income (PI)	96	International Comparisons	119
Disposable Income (DI)	96	5.4 Inflation	120
4.3 Nominal GDP versus Real GDP	96	Meaning of Inflation	120
Adjustment Process in a One-Product Economy	97	Measurement of Inflation	120
An Alternative Method	98	Facts of Inflation	121
Real-World Considerations and Data	98	Types of Inflation	121
Chain Weighted Index	99	<i>Consider This—Clipping Coins</i>	123
4.4 Shortcomings of GDP	100	Complexities	124
Measurement Shortcomings	101	5.5 Redistribution Effects of Inflation	124
Improved Product Quality	102	Nominal and Real Income	124
Well-Being Measure Shortcomings	102	Who Is Hurt by Inflation?	125
<i>The Last Word—Value Added and GDP</i>	103	Who Is Unaffected or Helped by Inflation?	126
Chapter Summary	104	Anticipated Inflation	126
Terms and Concepts	104	Addenda	127
Study Questions	105	5.6 Does Inflation Affect Output?	128
Internet Application Questions	106	Cost-Push Inflation and Real Output	128
CHAPTER 5:		Demand-Pull Inflation and Real Output	128
Introduction to Economic Growth, Unemployment, and Inflation	107	Hyperinflation	129
5.1 Economic Growth	108	<i>The Last Word—The Stock Market and the Economy</i>	130
Growth as a Goal	108	Chapter Summary	131
Arithmetic of Growth	108	Terms and Concepts	131
Main Sources of Growth	109	Study Questions	132
Growth in Canada	109	Internet Application Questions	133
Relative Growth Rates	110	CHAPTER 6:	
5.2 The Business Cycle	110	The Basic Macroeconomic Relationship	134
Phases of the Business Cycle	110	6.1 The Income-Consumption and Income-Saving Relationships	135
Provincial Variations	111	The Consumption Schedule	135
Causation: A First Glance	111		

The Saving Schedule	135	7.3 International Trade and Equilibrium Output	167
Average and Marginal Propensities	137	Net Exports and Aggregate Expenditures	167
Non-Income Determinants of Consumption and Saving	140	The Determinants of Imports and Exports and the Net Export Schedule	168
Other Important Considerations	142	Imports and the Multiplier	168
6.2 The Interest-Rate–Investment Relationship	143	Net Exports and Equilibrium GDP	169
Expected Rate of Return	144	International Economic Linkages	172
The Real Interest Rate	144	7.4 Adding the Public Sector	173
Investment Demand Curve	144	Government Purchases and Equilibrium GDP	173
6.3 Shifts in the Investment Demand Curve	146	Taxation and Equilibrium GDP	174
Acquisition, Maintenance, and Operating Costs	146	<i>Consider This—Paradox of Thrift</i>	177
Business Taxes	146	7.5 Equilibrium versus Full-Employment GDP	178
Technological Change	146	Recessionary Expenditure Gap	178
Stock of Capital Goods on Hand	147	Inflationary Expenditure Gap	178
Expectations	147	Application: The Slowdown of the Canadian Economy in 2001	178
Fluctuations of Investment	148	Limitations of the Model	180
6.4 The Multiplier Effect	150	<i>The Last Word—Say’s Law, the Great Depression, and Keynes</i>	181
Rationale	151	Chapter Summary	182
The Multiplier and the Marginal Propensities	151	Terms and Concepts	182
How Large Is the Actual Multiplier Effect?	152	Study Questions	183
<i>The Last Word—Squaring the Economic Circle</i>	154	Internet Application Questions	185
Chapter Summary	155	Math Appendix to Chapter 7	186
Terms and Concepts	155	A7.1 The Math behind the Aggregate Expenditures Model	186
Study Questions	155	CHAPTER 8:	
Internet Application Question	157	Aggregate Demand and Aggregate Supply	189
PART 3:		8.1 Aggregate Demand	190
Macroeconomic Models and Fiscal Policy	159	Aggregate Demand Curve	190
CHAPTER 7: The Aggregate Expenditures Model	160	Changes in Aggregate Demand	191
7.1 The Aggregate Expenditures Model: Consumption and Saving	161	8.2 Aggregate Supply	194
Simplifications	161	Aggregate Supply in the Long Run	194
Consumption and Investment Schedules	161	Aggregate Supply in the Short Run	195
Calculating GDP	161	Changes in Aggregate Supply	196
7.2 Changes in the Equilibrium GDP and the Multiplier	166	8.3 Equilibrium Changes in Equilibrium GDP	199

Increases in AD: Demand-Pull Inflation	201	Evaluating Fiscal Policy	227
Decreases in AD: Recession and Cyclical Unemployment	201	Cyclically Adjusted Budget	227
<i>Consider This—Ratchet Effect</i>	204	Recent Canadian Fiscal Policy	228
Decreases in AS: Cost-Push Inflation	204	9.3 Problems, Criticisms, and Complications	230
Increases in AS: Full Employment with Price-Level Stability	204	Problems of Timing	230
8.4 From the Short Run to the Long Run	207	Political Considerations	230
Short-Run Aggregate Supply	207	Future Policy Reversals	231
Long-Run Aggregate Supply	208	Offsetting Provincial and Municipal Finance	231
Long-Run Equilibrium in the AD-AS Model	209	Crowding-Out Effect	231
8.5 Equilibrium versus Full-Employment GDP	210	Fiscal Policy in the Open Economy	232
Recessionary Gap	210	Current Thinking on Fiscal Policy	233
Inflationary Gap	210	9.4 Deficits, Surpluses, and the Federal Debt	234
<i>The Last Word—Has the Impact of Oil Prices Diminished?</i>	212	False Concerns	235
Chapter Summary	213	<i>Consider This—Federal and Provincial per Capita Net Debt, 2004</i>	236
Terms and Concepts	214	Substantive Issues	238
Study Questions	214	9.5 Deficits and Surpluses: 1973 to the Present	240
Internet Application Questions	216	What to Do with the Surpluses?	240
Appendix to Chapter 8	217	<i>The Last Word—The Leading Indicators</i>	243
A8.1 The Relationship of the Aggregate Demand Curve to the Aggregate Expenditures Model	217	Chapter Summary	244
Derivation of the Aggregate Demand Curve from the Aggregate Expenditures Model	217	Terms and Concepts	244
Aggregate Demand Shifts and the Aggregate Expenditures Model	218	Study Questions	245
Appendix Summary	220	Internet Application Questions	246
Appendix Study Questions	220	PART 4: Money, Banking, and Monetary Policy	247
CHAPTER 9: Fiscal Policy, Deficits, Surpluses, and Debt	221	CHAPTER 10: Money and Banking	248
9.1 Fiscal Policy and the AD-AS Model	222	10.1 The Definition and Functions of Money	249
Expansionary Fiscal Policy	222	10.2 The Components of the Money Supply	249
Contractionary Fiscal Policy	223	Money Definition <i>M1</i>	249
Policy Options: <i>G</i> or <i>T</i> ?	224	Money Definition <i>M2</i>	251
9.2 Built-In Stability	225	Money Definition <i>M2+</i> and <i>M2++</i>	251
Automatic or Built-In Stabilizers	225	10.3 What “Backs” the Money Supply?	252
		Money as Debt	252
		<i>Consider This—Are Credit Cards Money?</i>	253

Value of Money	253	Reversibility: The Multiple Destruction of Money	275
Money and Prices	254	<i>The Last Word—Money in the Early History of Canada</i>	276
10.4 The Canadian Financial System	255	Chapter Summary	276
The Evolution of the Canadian Banking System	255	Terms and Concepts	277
Canada's Chartered Banks	256	Study Questions	277
Making Loans	256	Internet Application Questions	278
Other Financial Intermediaries	256		
Cheque Clearing	258		
10.5 Recent Developments in Money and Banking	258	CHAPTER 12:	
Expansion of Services	258	The Bank of Canada, Interest Rates, and Monetary Policy	279
Globalization of Financial Markets	258	12.1 Functions of the Bank of Canada	280
Electronic Transactions	259	Bank of Canada Independence	280
<i>The Last Word—The Production of Canadian Currency</i>	260	Consolidated Balance Sheet of the Bank of Canada	280
Chapter Summary	261	Assets	281
Terms and Concepts	261	Liabilities	281
Study Questions	261	12.2 The Market for Money and the Determina- tion of Interest Rates	282
Internet Application Questions	262	The Demand for Money	282
		The Equilibrium Interest Rate	284
		Interest Rates and Bond Prices	284
		12.3 Goals and Tools of Monetary Policy	285
		Tools of Monetary Policy	286
		Open-Market Operations	286
		Switching Government of Canada Deposits	290
		The Bank Rate and the Overnight Lending Rate	290
		Relative Importance	291
		12.4 Targeting the Overnight Lending Rate	291
		Expansionary Monetary Policy	293
		<i>Consider This—The Bank of Canada Sponge</i>	293
		Restrictive Monetary Policy	294
		The Taylor Rule	295
		12.5 Monetary Policy, Real GDP, and Price Level	295
		Cause-Effect Chain: The Transmission Mechanism	295
		Effects of an Expansionary Monetary Policy	298
		Effects of a Restrictive Monetary Policy	298
CHAPTER 11:			
Money Creation	263		
11.1 Chartered Banks and the Creation of Money	264		
The Fractional Reserve System	264		
Illustrating the Idea: The Goldsmiths	264		
Significant Characteristics of Fractional Reserve Banking	264		
A Single Chartered Bank	265		
Formation of a Chartered Bank	265		
Money-Creating Transactions of a Chartered Bank	268		
<i>Consider This—Goldsmiths, Gold Reserves, and Deposit Insurance</i>	268		
Profits, Liquidity, and the Overnight Lending Rate	270		
11.2 The Banking System: Multiple-Deposit Expansion	271		
The Banking System's Lending Potential	271		
11.3 The Monetary Multiplier	273		

Monetary Policy in Action	299	<i>The Last Word—Tax Cuts for Whom? A Supply-Side Anecdote</i>	324
Recent Monetary Policy	299		
12.6 Problems and Complications	300	Chapter Summary	325
Lags	300	Terms and Concepts	325
Cyclical Asymmetry	300	Study Questions	325
Inflation Targeting	301	Internet Application Questions	326
<i>Consider This—Pushing on a String</i>	301		
12.7 Monetary Policy and the International Economy	302	CHAPTER 14:	Economic Growth 327
Net Export Effect	302	14.1 Ingredients of Growth	328
Macroeconomic Stability and the Trade Balance	303	Supply Factors	328
		Demand Factor	328
<i>The Last Word—The Canadian Version of Inflation Targeting</i>	304	Efficiency Factor	328
		Production Possibilities Analysis	328
Chapter Summary	305	<i>Consider This—Economic Growth Rates</i>	331
Terms and Concepts	306	14.2 Canadian Growth Rates	333
Study Questions	306	14.3 Accounting for Growth in Canada	334
Internet Application Questions	307	Inputs versus Productivity	334
		Quantity of Labour	335
		Technological Advance	335
		Quantity of Capital	335
		Education and Training	336
		Resource Allocation and Scale Economies	336
		Other Factors	337
PART 5:		14.3 The Productivity Speedup: A New Economy?	338
The Long Run and Economic Growth	309	Reasons for the Productivity Speedup	338
		Implications: More-Rapid Economic Growth	340
CHAPTER 13:		Skepticism about Permanence	341
Long-Run Macroeconomic Adjustments	310	What Can We Conclude?	341
13.1 Applying the Long-Run AD-AS Model	311	14.5 Is Growth Desirable and Sustainable?	342
Demand-Pull Inflation in the Long-Run AD-AS Model	311	The Antigrowth View	342
Cost-Push Inflation in the Long-Run AD-AS Model	311	In Defence of Economic Growth	342
Recession and the Long-Run AD-AS Model	313	<i>Consider This—The Kyoto Protocol and Economic Growth in Canada</i>	343
13.2 The Inflation-Unemployment Relationship	314	<i>The Last Word—Economic Growth in China</i>	344
The Phillips Curve	314	Chapter Summary	345
Aggregate Supply Shocks and the Phillips Curve	316	Terms and Concepts	346
13.3 The Long-Run Phillips Curve	318	Study Questions	346
<i>Consider This—The Bank of Canada and the Phillips Curve</i>	320	Internet Application Questions	347
13.4 Taxation and Aggregate Supply	321		
Taxes and Incentives to Work	321		
Incentives to Save and Invest	322		
The Laffer Curve	322		
Criticisms of the Laffer Curve	323		

PART 6:		
International Economics and the World Economy	349	
CHAPTER 15:		
International Trade	350	
15.1 Canada and International Linkages	351	
Canadian International Trade: Volume and Pattern	351	
Rapid Trade Growth	353	
Participants in International Trade	354	
15.2 The Economic Basis for Trade	356	
Specialization and Comparative Advantage	357	
The Basic Principle	357	
Two Isolated Nations	357	
Specialization Based on Comparative Advantage	359	
Terms of Trade	360	
Gains from Specialization and Trade	360	
Trade with Increasing Costs	362	
The Case for Free Trade Restated	363	
15.3 Supply and Demand Analysis of Exports and Imports	364	
Supply and Demand in Canada	364	
Supply and Demand in the United States	365	
Equilibrium World Price, Exports, and Imports	366	
15.4 Trade Barriers	368	
Economic Impact of Tariffs	368	
Economic Impact of Quotas	370	
Net Costs of Tariffs and Quotas	371	
15.5 The Case for Protection: A Critical Review	371	
Self-Sufficiency Argument	371	
<i>Consider This—Shooting Yourself in the Foot</i>	372	
Diversification for Stability Argument	372	
Infant-Industry Argument	372	
Protection against Dumping Argument	373	
Increased Domestic Employment Argument	374	
Cheap Foreign Labour Argument	374	
Trade Adjustment Assistance	375	
Offshoring	375	
15.6 Multilateral Trade Agreements and Free-Trade Zones	376	
Reciprocal Trade Agreements	376	
General Agreement on Tariffs and Trade (GATT)	377	
World Trade Organization (WTO)	377	
The European Union (EU)	378	
North American Free Trade Agreement	379	
<i>The Last Word—The WTO Protests</i>	380	
Chapter Summary	381	
Terms and Concepts	382	
Study Questions	382	
Internet Application Questions	384	
CHAPTER 16:		
Exchange Rates and the Balance of Payments	385	
16.1 Financing International Trade	386	
Canadian Export Transaction	386	
Canadian Import Transaction	386	
16.2 The Balance of Payments	387	
Current Account	387	
Capital and Financial Account	389	
Official Settlement Account	389	
Payments Deficits and Surpluses	389	
16.3 Foreign Exchange Markets: Flexible Exchange Rates	391	
Flexible Exchange Rates	392	
Depreciation and Appreciation	392	
Determinants of Exchange Rate Changes	392	
<i>Consider This—Purchasing Power Parity: The Case of Hamburgers</i>	395	
Advantages of Flexible Rates	395	
<i>Consider This—A Ticket to Ride</i>	397	
Disadvantages of Flexible Exchange Rates	398	
16.4 Fixed Exchange Rates	398	
Use of Reserves	398	
Trade Policies	399	
Exchange Controls and Rationing	400	
Domestic Macroeconomic Adjustments	400	
16.5 International Exchange-Rate Systems	401	
The Gold Standard: Fixed Exchange Rates	401	

The Bretton Woods System	402	Web Site Bonus Chapters (found at www.mcgrawhill.ca/olc/mcconnell)
The Current System: The Managed Float	404	
<i>The Last Word—Speculation in Currency Markets</i>	405	CHAPTER 12W: Financial Economics
Chapter Summary	406	CHAPTER 13W: Disputes over Macro Theory and Policy
Terms and Concepts	407	CHAPTER 14W: The Economics of Developing Countries
Study Questions	407	
Internet Application Questions	409	
Credits	410	
Glossary	412	
Index	429
